Mechanical Engineering-S1	221
Ship Building Engineering-S1	113
Marine Engineering-S1	53
Management-S1	740
Accounting-S1	416
Renewable Energy-S2	31
Total	4128

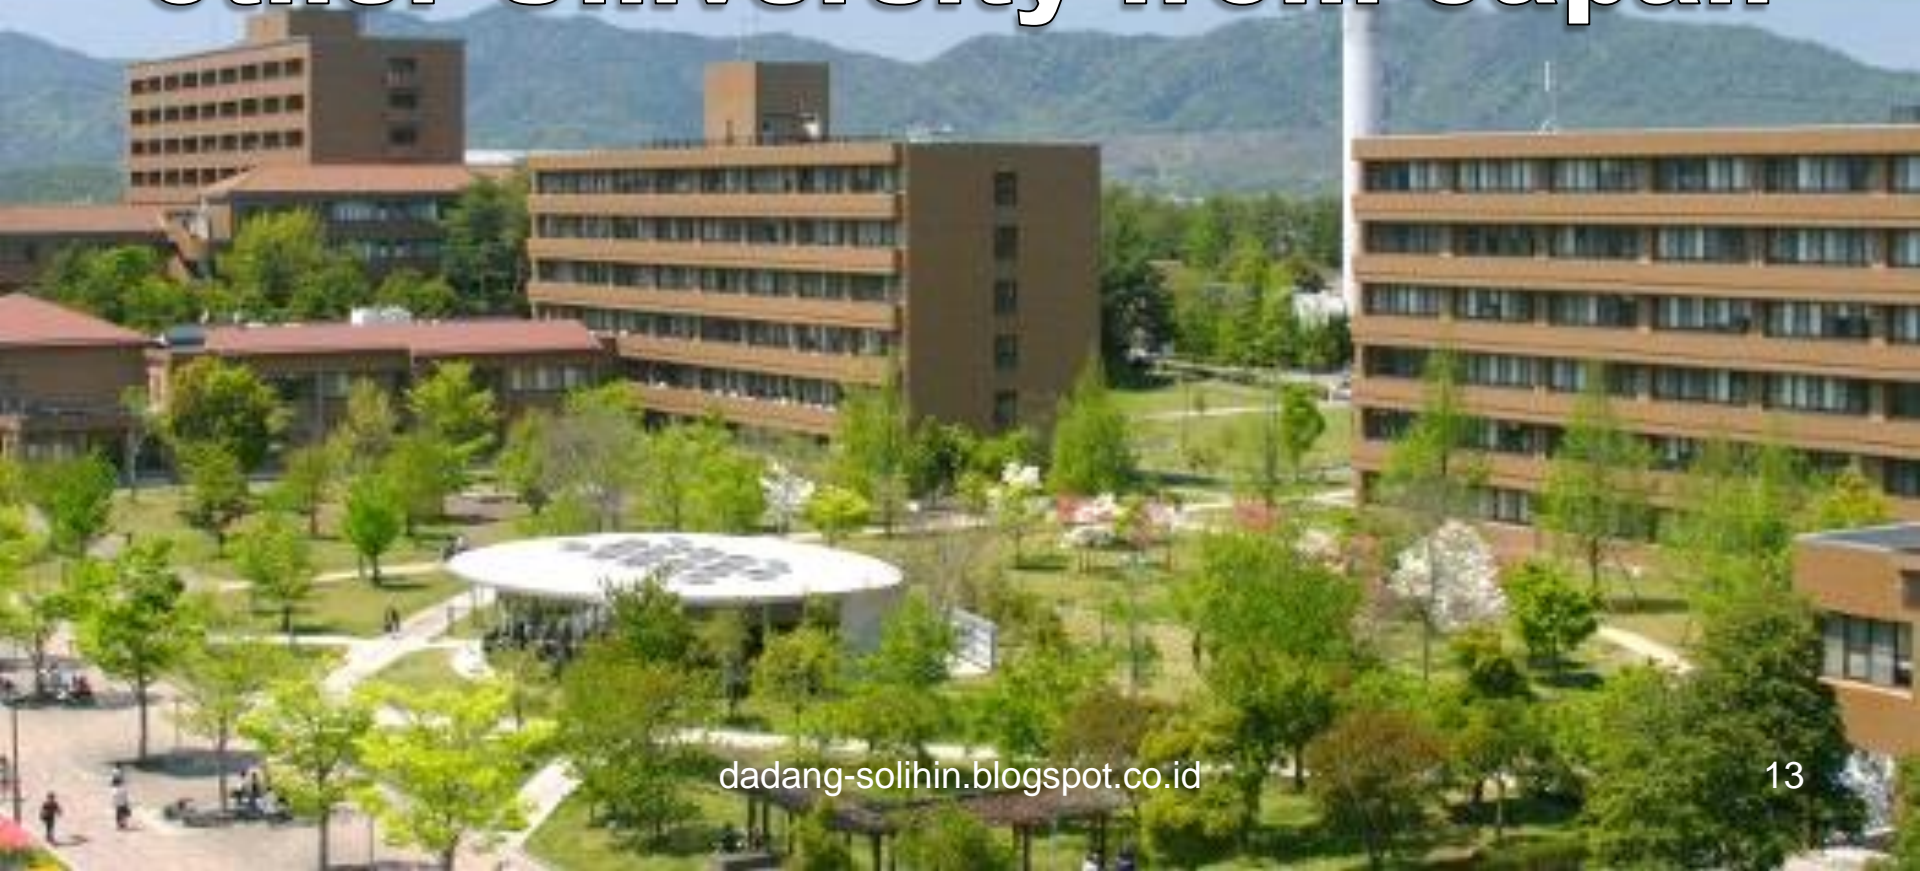

30th Birthday of Unsada

- On July 28, 2016 Darma Persada was celebrating his 30th birthday.
- Japan Indonesia Association which always supports Darma Persada before the commemorative ceremony established “Friends of Darma Persada”.
- “Friends of Darma Persada” is a supporting department for Darma Persada.
- Former Prime Minister of Japan, Mr. Yasuo Fukuda attended the ceremony as well.

The Current State of International Exchange with other University from Japan

Fostering a Good Relation

- Up until now Darma Persada has been fostering a good relation with universities from Japan.
- From Takushoku University, Osaka Economy University, Kansai International University, Hiroshima University, Saga University, Fukuoka Women University, Teikyo University, *Jigyou Souzou University*, *Production Technology University*, Osaka Prefectural University, Osaka Prefectural College University, and last but not least Yamanashi University.
- Darma Persada had started an agreement between these universities such as student exchange and short term training program.

Cooperation with Japanese Universities

- **Current Cooperation**

1. Takushoku University→Student Exchange, Speech Contest, Intensive Course
2. Hiroshima University→Study in Doctoral Course, Speech Contest
3. Kansai University of International Studies→Student Exchange
4. Advanced Institute of Industrial Technology→Asia Professional Education Network
5. Osaka Prefecture University
6. OPU College of Technology→Student Exchange
7. Osaka University of Economics
8. Osaka International University
9. Saga University→Research Collaboration
10. Fukuoka Women's University→Research Collaboration
11. Teikyo University
12. Yamanashi Gakuin University

- **Future Expectation**

- Waseda University
- Universities in Fukuoka Prefecture

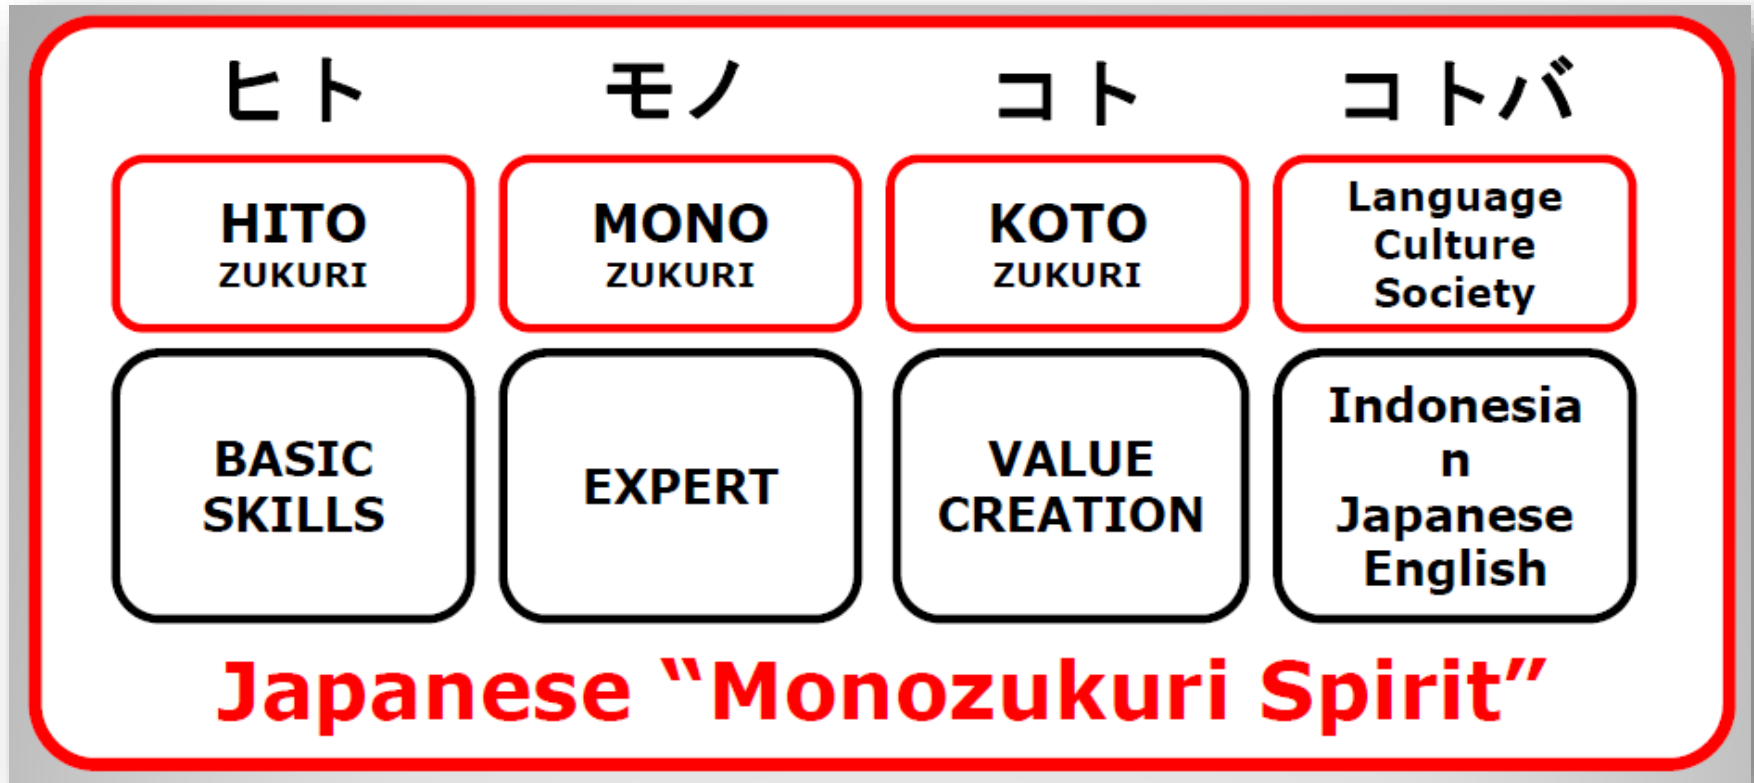

Really Meaningful Cooperation

- For Dharma Persada, having a cooperation with other universities from Japan is *really meaningful*. First, when scholarship from government is limited, cooperation between universities is really needed. Now, students can have a really good opportunity to study abroad such as short term training program based on the agreement between universities.
- Furthermore, for students or lecturers who want to continue their study to master and doctoral degree have good opportunity because of this cooperation. After they finished their program they can teach and make an improvement in Dharma Persada.
- Moreover, through this cooperation, internship program in Japan corporation chance is broadly opened.

The Monozukuri Spirit

- Students are able to know more about “Monozukuri Spirit” which is not taught in any university and only taught in Japan corporation.
- Students are not only able to learn terms used in Japan companies, but also experience more about the spirit itself.
- Moreover, they can understand more about Japan culture and condition. Additionally, the students are able to contribute in order to deepen the understanding between two countries.
- From now on, we can support and contribute to any Japan companies, which want to expand their business to Indonesia through our students.

Human Resource Development

UNSADA foster human resources with those specialties of “Monozukuri Spirit” and become the only one educational institute which grow and develop together with Indonesia.

Deepening the Cross Cultural Exchange

- Furthermore, The Ministry of Education, Culture, Sports, Science and Technology of Japan or as known as MEXT, have a lot of budget for training program.
- Such as student exchange, and other culture exchange between Indonesia and Japan. Also there are training program with local residents and companies.
- All of this cooperation is really important and essential for deepening the cross-cultural exchange.
- To continue this opportunity, mutual understanding is needed. Indonesia wants to accomplish this vision by taking more action *such as exchange students from Japan.*

Outlook toward 2025

DA & PERSADA
"JURI UNIVERSITY"
目指して
University of Darma Persada

Need More Attractive and Better Program

- As the explanation above, Darma Persada had started building a good relation with universities and companies from Japan. Such as student exchange; standard students who study in Japan and students from Japan to Indonesia for training, and other mutual program.
- In the near future we need more attractive and better program between universities in Japan and Indonesia.

Need Excellent Human Resources

- As of 31st December 2015, AEC (ASEAN Economic Cooperation) was established, and it will further enhance the development of social system among ASEAN countries.
- In the future, excellent human resources will be recruited and trained regardless whether they are from Indonesia or from other ASEAN countries.
- There will be more mobility among ASEAN and Japanese students, and there will be less and less gap regarding the nationality of the students.
- Education for human resources with both high global communication skill and specialist knowledge which are applicable globally will be highly appreciated. And we should adapt to these global trend.

Broaden a Global View

- Education in universities in Indonesia is gradually getting better, and all university sends their students abroad and taking international students to their university.
- Therefore, in the future, Darma Persada University will endeavor for further exchange program with other universities.
- We will strive to become a unique university with high quality, organized and continuation good university, credit transfer system, academic records, double degree, joint degree, etc.
- Through this program, students can have not only academic degree, but also broaden a global view, not limited in their own local view.
- We want to work for this effort for Government of Indonesia and other institution, such as companies.

Thank you very much
I do appreciate your kind attention
