CHAPTER 4

CONCLUSION

In this chapter, the writer concludes from all of the chapters that has been analyzed in previous chapters.

The objectives of the research is to identify kind of swear word in Nicki Minaj's song lyrics and to prove Nicki Minaj's social class can influence the use of swear words on her song lyrics

The writer uses the theory of sociolinguistic study which are social class, language variety, style and register to analyze the swear words in Nicki Minaj rap songs and the influence of social class in her lyric. The writer analyzed the swear words in the song by giving a classification and give an explanation about the swear words that exist in rap songs. The writer also analyzes the social class background of Nicki Minaj which includes educational background, environment, and income. Then the writer analyzes the influence of the social class background of Nicki Minaj to the use of swear words in her rap songs.

Based on the songs that the writer analyzes, style and register theory are used in Nicki Minaj rap songs. She uses swear words as the style that she uses in her songs. She registers her language for a particular type of situation, for example in her daily. The swear words that Nicki Minaj often uses are *bitch, nigga, fuck, hoes, pussy, damn, shit, motherfucking.*

Based on the analyzes of the social class background of Nicki Minaj. The writer conclude that she comes from lower-lower class and becomes upper-middle class is because of her education, environment and income background and it proves that social class affect the language that she uses. It is also related to the style and register.

The benefit of the term paper is generally to present scientific evidence of applying sociolinguistics in a specific way and it is expected to be able to understand what is the purpose of swear words and how social factors can influence the way people speak. It is to prove the influence of sociolinguistic study on the language variety in Nicki Minaj's rap songs. The conclusion of this

term paper is that the social class of Nicki Minaj gives influence to the use of swear words in her rap songs. Moreover, although it is not perfect, by understanding sociolinguistics as a science, the writer gets more comprehension about language variety.

However, the result of this term paper is available to be continued. The writer suggestion to everyone, who is interested to analyze sociolinguistics, social class, and language variety as a research material. There are many swear words can be analyzed by another research, such as swear words in novel, movies, daily conversation and also in songs. The writer hopes this study gives benefit to the other research.
