

CHAPTER 5

CONCLUSION AND SUGGESTION

This chapter presents the conclusion and suggestion that deal with the analysis. It contains with the summary of the analysis that is discussed in the previous chapter to reinforce the theme of this film is psychopathic disorder of the main character.

A. Conclusion

In this study, the data collected from Ingrid goes west movie, this movie tells about a girl who has mental illness. From beginning until the end of this movie talks that the main character is a lonely girl and a stalker. But, actually she becomes likes that because she just needs a friend. The writer analyzed this movie based on psychological approach, the psychopathic disorder. In accordance to the movie Ingrid has serious psychological problem in her life, after analyzing the intrinsic approach and the symptoms of Ingrid psychopathic the writer conclude that it is true that theme of this movie is psychopathic disorder because she have a several symptoms of psychopathic disorder those are, antisocial behavior, pathological lying, manipulative, lack of empathy, parasitic lifestyle and irresponsible. From the analysis of intrinsic the writer found about the causes of her become psychopath, the causes is because of poor parenting and the criteria of poor parenting is divorce or single parent, from beginning until the end of this movie, she does not described about her father she only talks about her mother, her mother was died because of heart attack, then finally the type of her psychopathic disorder is malevolent psychopath, it is described on her character. One of Ingrid character is a stalker and the characteristic of malevolent psychopath is a stalker.

From this movie we learn about how dangerous the social media for our life, if we used it wrongly, like what happen in Taylor, she posting all of her activity in real life to social media, it make a stalker to be more easy to know about her and the bad impact is not only for her it also for people around her, like what happen in her brother, because of her brother knows about the truth of the stalker, he become the target of the stalker, it make him in a dangerous. So, we have to smart in using social media to avoid bad things in our life.

B. Suggestion

This study only focuses on the intrinsic approach and the psychopathic disorder of Ingrid. There are more aspects that can be analyze from this movie with other criticism theory. The writer suggests the next researcher to analyze movie more detail using different point of view and criticism. In analyzing the movie the researcher should watch the movie for many time to understand the meaning of the movie more deeply, it can help the researcher to analyze the case of the problem that the researcher wants to discuss.
