

SCHEME OF THE RESEARCH

TRAUMATIC EXPERIENCE AND ANXIETY IN CLAIRE ALLAN'S NOVEL HER NAME WAS ROSE

BACKGROUND Literature is a form of translation of human consciousness and imagination by using language as a medium (Pickering and Hoepfer, 1981, p. 1). In short, the literature contains parts of human's mind and ideas about things people experience. It also exhibits human's behaviour. One of the example is traumatic experience and anxiety.

METHODS To do this research, the used method is qualitative method, the kind of the literature research, the feature of interpretative research and analysis by using collecting datum which are in the form of novel entitled Claire Allan's novel *Her Name Was Rose* as the primary resource and other related and supportive literatures as the secondary resources.

BENEFITS This research is expected to be useful for them who are interested in learning and getting a deeper understanding about the novel *Her Name Was Rose*. This study also can enrich the references for them who wants to analyze a literature by using on B. Carlson & Joseph Ruzek theory of Traumatic Experience and Hilgard & Atkinson theory of Anxiety, because it is a new perspective.
