Re : Invitation as Participant in Focus Group Discussion "Development of Kuala Lumpur – Banda Aceh – Port Blair Connectivity", Putrajaya, Malaysia, 29 April 2019

Mr. Joseph Adriaan Saul
President Director of Sriwijaya Air
Tangerang – Banten, Indonesia

The Policy Analysis and Development Agency (PADA), Ministry of Foreign Affairs of the Republic of Indonesia, in collaboration with the Center for IMT-GT Sub Regional Cooperation (CMT), will conduct a Focus Group Discussion (FGD) on the "Development of Kuala Lumpur - Banda Aceh - Port Blair Air Connectivity" in Putrajaya, Malaysia. The FGD will be attended by around 30 participants and speakers, from various backgrounds i.e. government officials, private sectors, academics and stakeholders.

In this regard, PADA has the honour to invite you to participate in the FGD that will be held on:

Date : 29 April 2019
Time : 08.30 – 13.30
Venue : Centre for IMT-GT Subregional Cooperation
Office 3A, Level 3, Block C, Menara PJH, Jalan Tun Abdul Razak,
Precinct 2, 62100 Putrajaya, Malaysia

Please find attached Terms of Reference (TOR) and Tentative Agenda of the FGD for your reference. For further information, please contact Mr. Indra Noer at (+62) 81314003622 or Mr. Budi Supangat at (+62) 81338202789, and email: aspasaf.bppk@kemlu.go.id.

We are looking forward for your kind reply and presence at the event. Thank you.

Director General,
Policy Analysis and Development Agency

Dr. Siswo Pramono, LL.M.

Focus Group Discussion (FGD)

"Development of Kuala Lumpur - Banda Aceh - Port Blair Connectivity"

Putrajaya, Monday, 29 April 2019

I. Background

President Joko Widodo and Prime Minister Narendra Modi have agreed on a Statement on Shared Vision of India-Indonesia Maritime Cooperation in the Indo-Pacific. Welfare in the region is built through the development of economic connectivity based on universal norms, international law, transparency, and mutual respect for sovereignty and territorial integrity. Included in the Statement on Shared Vision is the need to increase connectivity between Andaman & Nicobar and the provinces in Sumatra, including Aceh.

Regarding the development of Aceh - Andaman & Nicobar connectivity, concrete steps have been carried out in 2018 as follows:

1. India - Indonesia Investment Forum, 9 July 2018 in Banda Aceh, was attended by 50 entrepreneurs from the Aceh Chamber of Commerce and the Andaman Chamber of Commerce and Industry;
2. Designing roadmap for developing Aceh - Andaman & Nicobar relations. Involving Aceh Chamber of Commerce, Almuslim University, and Syiah Kuala University, in Jakarta on August 8, 2018;
3. Focus Group Discussion on the technical aspect of developing Aceh - Andaman & Nicobar Connectivity, in Banda Aceh on November 5, 2018;
4. Market intelligence in Chennai and Port Blair by Almuslim University, Syiah Kuala University, and Malikussaleh University, on 23-29 November 2018;
5. Indonesia-India Seminar and Business Forum, 29 November 2018 in Port Blair, Andaman & Nicobar. The signing of the MoU on Trade, Tourism, Investment, Industry, Service and Other Matters of Mutual Interest between Aceh Chamber of Commerce and Andaman Chamber of Commerce and Industry (ACCI);
6. Indonesia-India Seminar and Business Forum in Chennai on December 1, 2018. The signing of MoU on Trade, Tourism, Investment, Industry, Service and other Matters of Mutual Interest between Aceh Chamber of Commerce and United Economic Forum (UEF) Chamber of Commerce;
7. Launching of the pioneer expedition of the merchant vessel from Port Malahayati, Aceh to Port Blair, Andaman, on December 28, 2018. The expedition brought samples of Acehese export products.

As a follow-up, in 2019, Policy Analysis and Development Agency (PADA) of the Ministry of Foreign Affairs of the Republic of Indonesia in collaboration with Syiah Kuala University and Centre for Indonesia-Malaysia-Thailand Subregional Cooperation (CIMT) will conduct series of study on expanding Aceh - Andaman & Nicobar connectivity within the framework of Indonesia-Malaysia-Thailand Growth Triangle (IMT-GT) plus. The idea of developing the IMT-GT plus Andaman & Nicobar connectivity is based on following rationale:

- a. To optimize the benefits of the IMT-GT cooperation, it is deemed necessary to involve dialogue partners. India as the dialogue partner of ASEAN and geographically bordering IMT-GT has the potential to become an IMT-GT dialogue partner, through the development of IMT-GT connectivity with Andaman & Nicobar;

- b. The IMT-GT can benefit from the development carried out by the Indian government in the Andaman & Nicobar. IMT-GT can encourage trade, increase p-to-p, and tourism cooperation.

II. Development of Air Connectivity: Kuala Lumpur - Banda Aceh - Port Blair

The population of Andaman & Nicobar is 400,000, while domestic tourists from mainland India who visit Andaman & Nicobar amount to 500,000/year, while foreign tourists number 20,000/year. Thus, at any given time, the Andaman & Nicobar has a population of around 900,000 - 1,000,000 people. Government of India plans to develop the Andaman & Nicobar as one of the centers of maritime tourism destinations in the Indian Ocean. For this reason, India is developing various infrastructures in Andaman & Nicobar (mainly hotel infrastructure, resorts and airport development).

The opportunities that can be explored through developing business connectivity with the Andaman and Nicobar are:

- a. There are opportunities to supply goods needed, considering 95% of all daily needs (vegetables, dairy products, etc.) and building materials in Andaman & Nicobar are imported from Indian mainland, which is 1300 KM (ie Port Blair-Chennai).
- b. With a flight distance of only about 1 hour from the Andaman & Nicobar to Aceh, it is hoped that Aceh can attract Indian tourists from the Andaman & Nicobar to Aceh, considering there are 500,000 domestic tourists from mainland India who are on vacation in Andaman & Nicobar.

From looking at the various potentials above, as well as from the results of joint research conducted by Almustim, Malikussaleh and Syiah Kuala University, the real shortcomings in the Aceh and Andaman & Nicobar relationship is the connectivity sector. So far there have been no regular shipping or flights between Aceh and Andaman & Nicobar. Thus, cooperation between Aceh and Andaman & Nicobar needs to be prioritized on sustainable sea and air connectivity.

Air connectivity will be an important part of the successful development of business connectivity between Aceh and Andaman & Nicobar. In globalization era like today, the demand for fast mobility of passengers and goods is inevitable. For this reason, the role of airlines is needed in capturing the opportunities for developing connectivity, considering the load factors that exist. Within the framework of IMT-GT Plus, the air connectivity is deemed necessary to involve the IMT-GT country which is an international flight hub, in this case Kuala Lumpur (Malaysia).

III. Formulation of issues

- 1. What are the opportunities and obstacles that will be faced in developing the Kuala Lumpur - Banda Aceh - Port Blair air connectivity?
- 2. What are the benefits of developing Kuala Lumpur - Banda Aceh - Port Blair air connectivity?
- 3. If Kuala Lumpur - Banda Aceh - Port Blair air connectivity is feasible, what is the development strategy?

IV. Activities

1. Form of Activity

The discussion will be conducted in Focus Group Discussion (FGD) format.

2. Date and Venue

The activity will be held on 29 April 2019 in Putrajaya, Malaysia.

3. Speakers

The speakers at the FGD are practitioners and experts.

4. Participants

FGD participants are representatives of government agencies, / ministries / institutions, and other relevant stakeholders.

Tentative Agenda
Focus Group Discussion
"Development of Kuala Lumpur - Banda Aceh - Port Blair Connectivity"
