CLOSING

5.1 Conclusion

Internship is the subject that must taken by student of Diploma III English Program, University of Darma Persada. The purpose of internship is to get experience when working in the institution. From my experience during internship, I get both many useful things and knowledge that are not in lecture. From the beginning, we learned to use office equipment and also to interact with all staffs of the institution. Last but not least is their attitude towards us who is very welcome and always guides us during the internship. They also sometimes give us some advice and support during the internship program.
