

CHAPTER 4

CONCLUSION

In analyses types of code switching and the reasons of Tyson James Lynch do code Switching in “Entertainment News” program on NET TV, the writer concludes this writing that First, the writer analyzed this Tyson James Lynch’s utterances in “Entertainment News” program on NET TV because Tyson James Lynch use two languages, Indonesian and English. Second, there are three types of code switching: intra-sentential switching 6 examples from 9 datum, tag switching 2 examples from 2 datum, inter-sentential switching 7 examples from 7 datum. Therefore, the dominant type in this study are inter-sentential switching. In inter-sentential code switching, the language switching is done at sentence boundaries words or phrases at the beginning or end of a sentence.

Third, The study also shows that there are many reasons why code switching happened in Tyson James Lynch’s utterances : talking about a particular topic 8 examples from 8 datum, quoting somebody else 8 examples from 8 datum, showing empathy about something 2 examples from 2 datum, interjection (inserting sentence fillers or sentence connector) 17 examples from 17 datum, repetition used for clarification 16 examples from 16 datum, and expressing group identity 2 examples from 2 datum. The most reasons why Tyson James Lynch does code switching is interjection (inserting sentence fillers or sentence connector). Regarding the reason, Hoffman (1991) suggested that language switching and language mixing among bilingual people can sometimes mark an interjection or sentence connector. It may happen intentionally or unintentionally. Therefore he often uses inter-sentential switching and interjection in every interview because he wants the audiences in Indonesia and every country to understand what he talking about.
