POSTER OF THE RESEARCH

UNIVERSITAS DARMA PERSADA

Background of The Problem

Interaction between people becomes unavoidable, and communication becomes the main point to convey the message. Communication is not just how the message is conveyed but also the impression the speaker gets. How the message conveyed appropriately and the speaker's response as expected by the listener, becomes an important point in communicating. Speech acts are a study of how the speakers and hearers use language. Speech act is the utterance that occurs and act refers to an action. Speech act theory is an aspect of pragmatic function developed.

Formulation of The Problem

1. What are the utterances of Thanos reflecting illocutionary act found in "Avengers: Infinity War" movie script?
2. What are the function of illocutionary act realized by Thanos in "Avengers: Infinity War" movie script?
3. What are the impact of the illocutionary act delivered by Thanos in "Avengers: Infinity War" movie script?

Research Methods

The approach used in this study is a qualitative approach with a qualitative descriptive analysis method to collect the data and analyzed it, and then interpret the utterances that cannot be translated literally. The object of the research is the movie script for "Avengers: Infinity War". The data used in this study are utterances spoken by Thanos as the main character. The data collection technique used in this study is a documentation technique with downloads movie scripts as a source of the research data.

Research Finding

Based on the research findings results, There are forty-four utterances of Thanos that use the illocutionary types. Seventeen utterances are classified as representative (assertive), eleven utterances are classified as directive, six utterances are classified as expressive, nine utterances are classified as commissive, and one utterances are classified as declarative type.

Conclusion

In the "Avengers: Infinity War" movie script, there are all types of illocutionary act used by Thanos as the main character. The reason why Thanos uses illocutionary acts is because he is a villain, so he uses representative, directive, and declarative types of speech acts. And he is also a human which has a feeling, so he uses expressive feelings such as regretting, suffering, mourning, condolence, and apologizing. And he uses commissive type to commit and promises about what will he do. Every utterance that Thanos uses has an impact on the hearer, whether it is the form of actions or words.

IDENTIFICATION OF THE PROBLEM

People sometimes are communicating in different styles

1. Some people explain something directly according to the meaning they want to convey
2. Some people with a meaning and unclear speech or context that cannot be interpreted by the listener

CONCLUSION

- 1 There are five kinds of illocutionary act uses by the main character that is representative (assertive), directive, commissive, expressive, and declarative.

- 4 This study could be useful in providing understanding in speech acts theory especially on illocutionary acts and perlocutionary Acts. And I hope that this study will inspire other researchers prospective to explore deeper the illocutionary acts in movies or other literary works.

DATA ANALYSIS

Thanos: There are two more Stones on Earth. **Find them**, my children, and bring them to me on Titan.
 Proxima Midnight: Father, we will not fail you.

This is a directive type of speech act, which has the function of command someone.

Thanos' utterance certainly has an impact, which will influence the listener to do something, which is a perlocutionary speech act.

Red Skull: The price. Soul hold a special place among the Infinity Stones. You might say it has a certain wisdom.
 Thanos: **Tell me what it needs.**
 Red Skull: To ensure that whoever possesses it... Understands its power... The stone demands a sacrifice.

This is a commissive type of speech act, which has the functions of offering. Thanos' utterance certainly has an impact, which will influence the listener to do something, which is a perlocutionary speech act.
