

## CHAPTER 5

### CONCLUSION

After analyzing the novel *THE WIFE BETWEEN US* through an intrinsic approach consisting of characterizations by telling and presenting the method, plot, setting and after describing the results of the analysis with an intrinsic approach consisting of anxiety and jealousy. I can conclude that the novel *The Wife Between Us* reflects excessive anxiety and jealousy. n

Vanessa as the main character in this novel experiences excessive anxiety and jealousy that occurs in her life. It's not easy for Vanessa to live her life when she has a lot of bad memories that happened to her before she divorced Richard. Vanessa turns into a very jealous person not because she wants to go back to Richard, but to spy on her fiancé and tell her fiancé that Richard is actually not good, not as suggested by him. Vanessa did that because before getting divorced Richard did a heinous act before they finally divorced. Vanessa is very worried about people who are close to Richard, not because she is jealous or wants to come back to him, Vanessa just wants to warn the woman who is close to her ex-husband, that Richard is dangerous and not as good as he thinks.

Through this research, I can conclude that Vanessa's experience of excessive anxiety and jealousy can cause the psychological growth of sufferers to be disrupted. Excessive anxiety about a person can have a negative impact on a person's psychological growth. The moral of this research is to show people that excessive anxiety and jealousy have a lasting impact on the person who experiences them. The purpose of this study is to explain the symptoms of excessive anxiety and jealousy and also to tell the reader not to try to experience these kinds of things. Based on the results of the study, further research has the potential to use the application of sublimation theory and its relation to literary works. Because there is no research that uses this novel. It is still wide open for the possibility of new findings that can be analyzed in this novel. The results of this study can be used as a reference in analyzing the novel *The Wife Between Us* by using other approaches.
