POSTER OF THE RESEARCH

The poster features a central title and five main text boxes, each with a decorative border. The top left corner contains the logo of Universitas Darma Persada, a yellow shield with a red triangle and a white circle. The background is light yellow with decorative elements like stars and a diamond. The text boxes are: 'Background of The Problem' (pink), 'Research Method' (yellow), 'Formulation of The Problem' (teal), 'Research Finding' (grey), 'Objectives of The Problem' (yellow), and 'Conclusion' (pink). At the bottom, there are two white boxes for the author's name and affiliation.

 **THE CONCEPT OF REVENGE AND AMBITION OF MAIN CHARACTER IN MOVIE SCRIPT "CRUELLA" BY CRAIG GILLISPIE**

Background of The Problem

Everyone has their own characteristics and dreams. Like the nature of revenge against bad people and the ambition to become a Designer. Revenge is the act of hurting or injuring another person because of hurt or wrongdoing experienced by someone. Meanwhile, ambition is a desire or desire to get what you want. Revenge and ambition are clearly depicted in this filmnya. This study contains an analysis of this film to show the psychological problems contained in the background of the film script. A script is written in a specific format to distinguish characters, lines, actions, and dialogue. Therefore, this study will analyze whether the main character shows the nature and concept of revenge and ambition.

Research Method

I used a qualitative approach in this research. This research was conducted using a qualitative descriptive method because it describes the nature of revenge and ambition of the main character in the Cruella movie script, and using the showing method because it uses movie script dialogue. This research data is collected from dialogue between characters in the movie script Cruella.

Formulation of The Problem

1. How does the main character's behavior change from good behavior to bad behavior?
2. What form of revenge did the main character take?
3. What is the form of Estella's ambitious behavior?
4. What are plot and setting that support the theme in the movie script "Cruella"?

Research Finding

This study provides an explanation of the nature of revenge and ambition of the main character in the movie script Cruella. The theory of revenge by Matanggaran, the theory of ambition by Tatenhove and other supporting theories are used in this study to determine psychological problems in the movie script Cruella. The main character is proven to have revenge because his mother was killed and the main character has ambition since childhood to want to be a designer.

Objectives of The Problem

1. To analyze how the character's behavior change from good behavior to bad behavior
2. To analyze the form of revenge she take and her reasons
3. To analyze the form of Estella's ambitious behavior
4. To analyze the plot and setting that support the theme

Conclusion

Based on the results of the data, it is concluded that Estella has the ambition to become a famous designer. Also, Estella took her revenge on the person who had killed her mother. With Estella's ambitious nature, she can do whatever she wants. Then, with Estella's vengeful nature, she avenged her mother's death and destroyed everything that belonged to the person who killed her mother. Estella also deleted the name and she changed her name to Cruella De Vil.
