BACKGROUND OF THE PROBLEM

Doublespeak

Doublespeak is language that pretends to communicate but really doesn't. It is language that makes the bad seem good, the negative appears positive, the unpleasant appear attractive or at least tolerable

Speech

The speech titled "On the Use of Chemical Weapons by Syrian Government" are riddled with doublespeak, cherry picked information, unconfirmed reports and outright lies. The true goal of the speech is of course to demonized and illegitimized the Syrian government and to manipulate the US population into approving an illegal attack on a sovereign nation.

Formulation of The Problem

1. What are the types of doublespeak that being used in the speech?

2. Why is doublespeak being used in the speech?

3. How is the historical and political context affect speech?

Objective of the Research

1. To analyze what kind of doublespeak are being used in the speech is it euphemism or jargon.
2. To find out the reasons why doublespeak is being used in the speech.
3. To analyze the historical and political context in the words or a sentence that contains doublespeak.

Method of The Research

Qualitative Method

Content analysis

Framework of the Theories

William Lutz doublespeak

Allan and Keith Types of Euphemism

Research Finding and Analysis

I found a total of twenty data of doublespeak in Barack Obama's Speech "On the use of chemical weapons by Syrian Government"

2 data of Euphemism

4 data of Euphemism
Hyperbole

11 data of Political Jargon

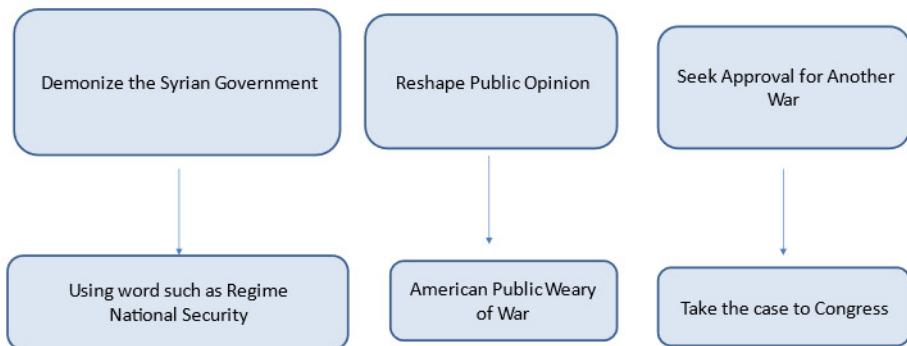

2 data of Military Jargon

1 data of Dysphemism

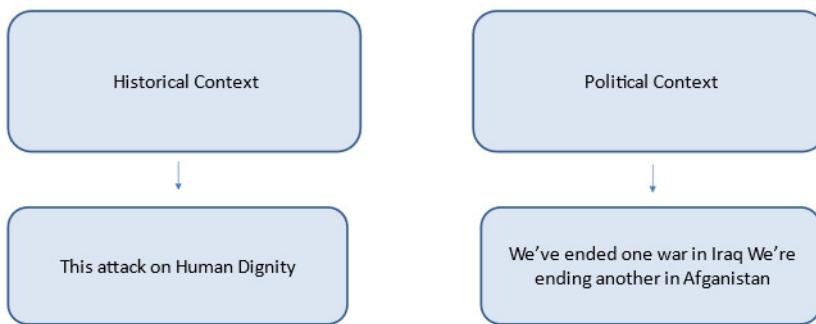

16	"But I will ask those who care about the writ of the international community to stand publicly behind our action."	Political Jargon
----	---	------------------

- In the utterance above I marked "international community" as political jargon. (Jones, 2012) Chomsky said in an exclusive interview to Press TV that Israel "is a client state of the United States; the United States has total impunity and that is inherited by its allies and clients". Noam Chomsky also said that the term of international community refers to the United States and its allies and client states and does not include the actual international community as in the members state of the United Nation as well as non -member states.

CONCLUSION

1

A total of 20 data can be found in the speech
Euphemism 2 data
Euphemism Hyperbole 4 data
Political Jargon 11 data
Military Jargon 2 data
Dysphemism 1 data

2

Demonize the Syrian government

3

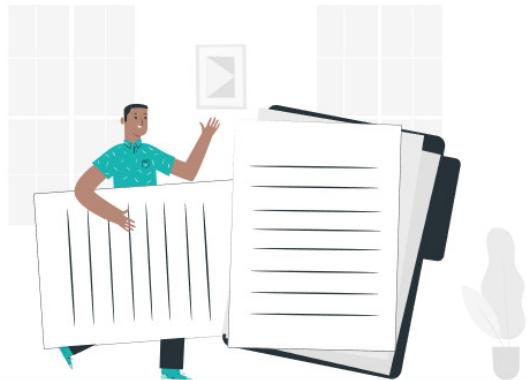

Reshape the public opinion and seek approval for another war

4

Correlation between the speech and political and historical context shows how hypocrite Obama was
