Background of The Research

The novel entitled *The Perfect Child* by Lucinda Berry published in 2019 is one of a literary work that tells about trauma and psychopath.

And The reason why this novel is important to be analyzed as the object of the study because it reveals the psychological aspects that refer to how symptoms and conditions can impact a person's mental and emotional state of health and how the mind can influence a person and that is represented by Janie. She has trauma that leads to the emergence of psychopath traits.

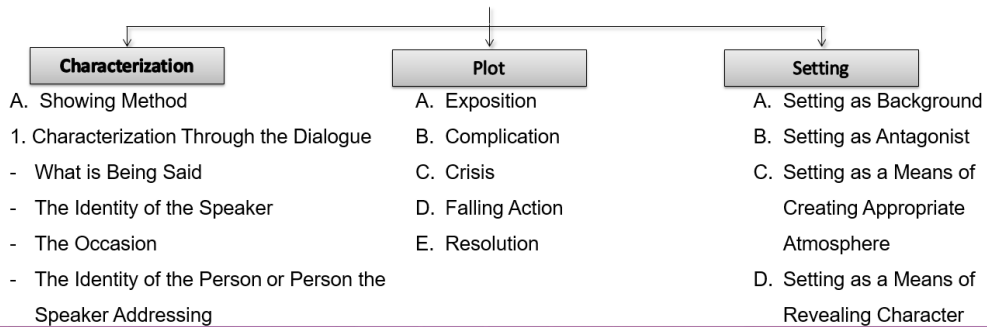

Formulation of The Problem

1. What are the characterization of the characters through showing methods in Lucinda Berry's Novel *The Perfect Child*?
2. What are plot and setting in Lucinda Berry's Novel *The Perfect Child*?
3. What are reflection of trauma and psychopath concept through intrinsic and extrinsic approaches?
4. Can the intrinsic and extrinsic approaches be used to reinforce the theme?

Frameworks of The Theories

A. Intrinsic Approaches

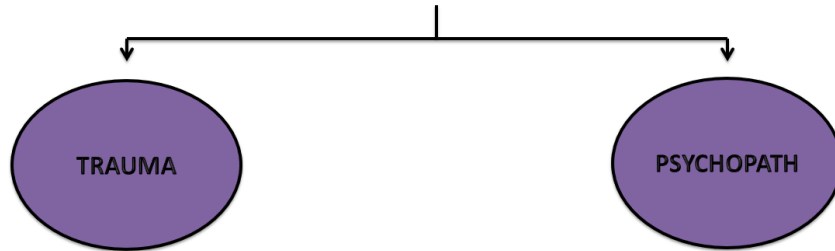

I use the concepts of James H. Pickering and Jeffrey D. Hopper in their book titled *Concise Companion to Literature* to analyze the intrinsic elements of the novel.

Frameworks of The Theories

B. Extrinsic Approaches

In extrinsic approach, there are 2 concepts to support the theme of my analysis.

Page 6

Trauma

Nancy Boyd Webb in her book *Mass Trauma and Violence*, states that trauma is expressed as pain experienced by someone who can damage physical and psychological so that it brings difficulties to life such as decreased levels of productivity and daily activities. (Webb, 2004)

Furthermore, a person who has experienced trauma may feel:

1. Emotional & psychological response, including: denial, anger, fear, sadness, shame, confusion, anxiety, depression, numbness, guilt, hopelessness, irritability, difficulty concentrating.
2. Physical response, including: headaches, digestive symptoms, fatigue, racing heart, sweating, feeling jumpy.

Page 7

Psychopath

Psychopath is a mental disorder whose main feature is the inability to adapt. In addition, a psychopath also does not have moral and social responsibilities, has an unstable personality and is emotionally immature.

Furthermore, I use the concept of Stefan Verstappen in his book *Defense Against Psychopath* to analyze psychopath traits, there are:

- | | | |
|--------------------|---------------------------|--------------------------|
| a) Lack of Empathy | d) Irresponsibility | g) Impulsive Lying |
| b) Lack of Remorse | e) Impulsive Behaviour | h) Manipulative |
| c) Superficially | f) Poor Behaviour Control | i) Anti Social Behaviour |
