

CHAPTER V

CLOSING

5.1 Conclusion

Internship is one of the subject in English Diploma III Program that must be taken by all of Diploma III student as a requirement to graduate and obtain the Associate's Degree applied by Faculty of Literature of Darma Persada University. The internship has the purpose as a media for students to apply their knowledge and skills to obtained during studying in University and to adapt with the environment of real workplace. Furthermore, internship is an opportunity for students to expand their skills in dealing with the real workplace in order to get the best graduates who will have the ability to compete in the global market.

After doing an internship at Skill Development Institute at Darma Persada University, I've got a lot of experiences that so valuable to me during an internship, such as:

1. I'm able to adapt and interact with the workplace environment and understand the different characteristics of people in the workplace.
2. Gain new skills, experience, and knowledge about the workplace and how to work in workplace.
3. Understand the work ethic of Skill Development Institute at Darma Persada University.
4. Learn that Skill Development Institute at Darma Persada University is a very important institute for language and computer courses.

In this case, carrying out the internship in Skill Development Institute at Darma Persada University is a wise choice for me. It give me an opportunity to learn something new from the institute. I'm also able to develop the potential that I have. I hope that Skill Development Institute at Darma Persada University always gave a lot of opportunities and beneficial skills for the others who doing an internship at workplace.
