POSTER OF THE RESEARCH

ARINDITA KIRANA (2018130099)

THE ILLOCUTIONARY ACTS REFLECTED IN "BLACK PANTHER" MOVIE SCRIPT

Background of The Problem

In daily life people often make request both directly and indirectly to say something, when they are interacting each other they do not always uses direct utterances. They often used indirect utterances, it means, that when the utterances express indirectly, it has different meaning because the listener may not understand what is conveyed by the speaker.

Formulation of The Problem

1. What are the statements shown as illocutionary acts found in "Black Panther" movie script?
2. What are the effects of illocutionary acts in utterances found in "Black Panther" movie script?

Research Methods

The research approach I use is qualitative descriptive research, because the data are presented in the form of movie script not numbers (quantity). Descriptive research is to collect the data and analyze it in the movie script, and then I will explain the utterances of movie script that cannot be translated directly and comprehensively uses five types of Searle's theory.

RESEARCH FINDING

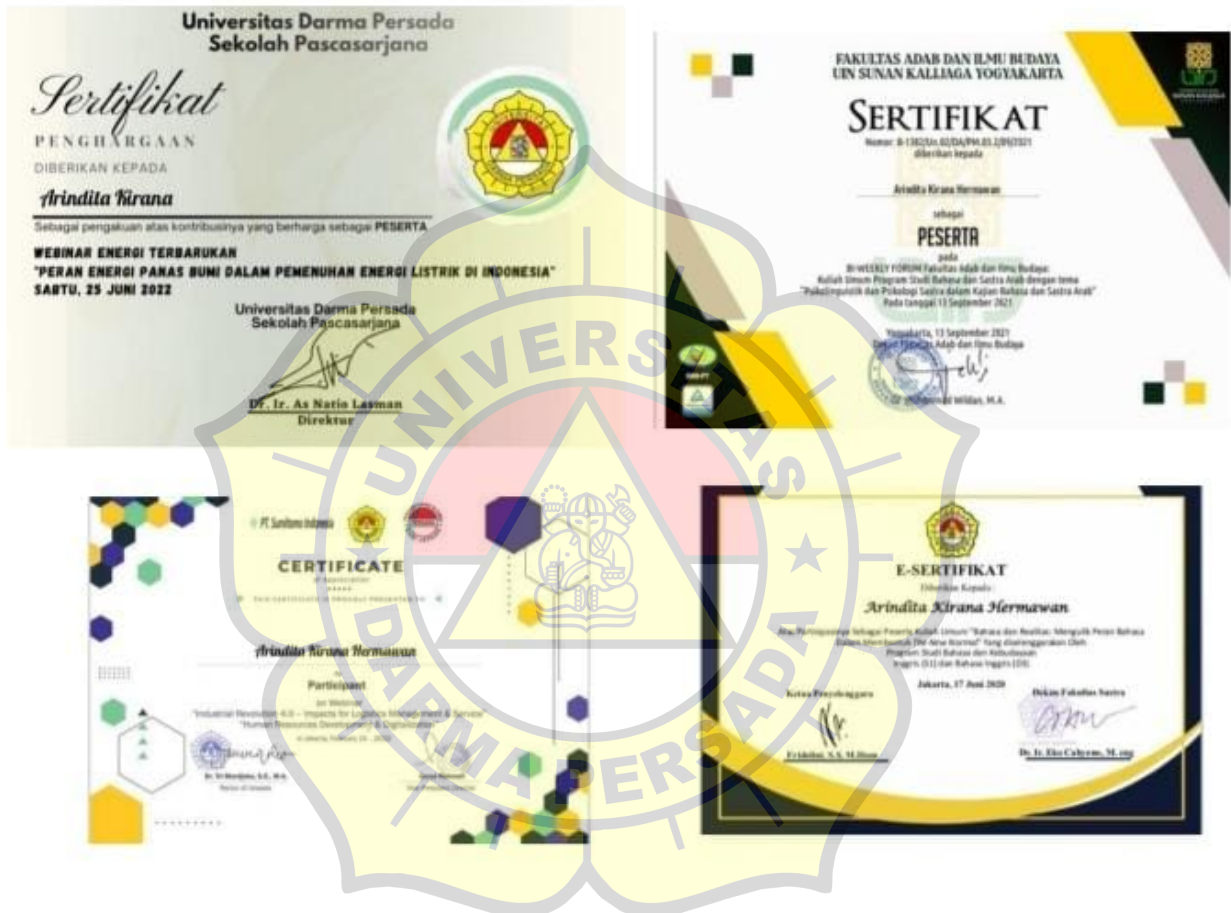

Research findings: this research can give us benefit to deeply understanding about speech acts
This research will be beneficial for the people who are studying linguistics, especially, illocutionary acts.
In the data findings, there are five types' illocutionary acts developed by Searle's theory that is appeared by all the characters of "Black Panther" utterances. From the data findings, I will interprets the types and the context of illocutionary acts.

CONCLUSSION

In the "Black Panther" movie script I conclude that there are five types of illocutionary act in movie script, Illocutionary acts and perlocutionary acts become main concern because illocutionary acts related to the speaker's intends and perlocutionary acts related to the effect of the utterance which is said by the speaker to the listener.
