

CHAPTER V

CONCLUSION

After analyzing this novel I can conclude that the Intrinsic approach can be used to analyze this novel. I apply showing and telling methods to know the characterizations of some characters. The characters whom I analyze are Lara Jean, Peter Kavinsky, and Dr. Covey. Then by using the concept of setting, especially the five functions of setting, I can know the setting of this novel. Also, by using the concept of plot, I can analyze the plot of this novel from exposition until resolution.

Then, I also conclude that the extrinsic approach can be used to analyze this novel. I use the concept of love, anxiety, and happiness. The characterizations, setting, and plot of this novel support the concepts of love, anxiety, and happiness. I also elaborate between the intrinsic and extrinsic analysis. It proves that the theme of this novel is love and anxiety on character Lara Jean ends with happiness.

It explains that Lara Jean loves someone who was just friends eventually became lovers. Her father, older sister, and younger sister supported her to get back in touch with Peter but because of her innocence made it difficult to want to reconnect with Peter. Because thanks to the support of her older sister and younger sister eventually she became his couple of Peter and make love when before they are was just friends. But in the middle of the life of Peter and Lara Jean who was in love this was caused by the conflict of hot tub videos himself and Peter spread on Instagram.

Lara Jean became anxious about who spread the video, Lara Jean also anxious because Peter reconnect with Genevieve the girl ex-girlfriend of Peter. Lara Jean believes that spreading the video is Genevieve but Peter does not believe it and increase her anxiety. On the other hand Lara Jean gets a love letter from John and finally Lara Jean loves two men at once, Peter and John. But Lara Jean had to choose one of them to be her partner. During that time Lara Jean was in love with John at the party by dancing with Lara Jean. Not only Lara Jean became anxious but Peter was also became anxious to see that Lara Jean was in love with John even though he was reconnecting with Genevieve.

This novel describes that her father is very love with his daughter who have been left by her dead mother, so her father is also very caring and patient with Lara Jean who was having this conflict

when Lara Jean did not want her father to know the conflict she was facing but her father still concerned with Lara Jean with support and advice for her so that Lara Jean became comforted because of her father. Her anxiety to see Peter who is in relationship with Genevieve finally ended with happiness because it turns out Peter prefer and love Lara Jean than Genevieve and Lara Jean also chose Peter rather than John to be her lover. After analyzing this novel, the writer realizes there are few things we can learn from the character Lara Jean. The first, when we have a problem we must be patient and do not suspect first who if we do not know the culprit and we must love someone sincerely and believe that the couple who loves us will surely come back even though faced by the problem and finally ended with happiness. Then, as a human who always need love we must understand the definition of commitment. Of course, everyone can freely define commitments, but we have to known there are times when we have to let someone, so we not destroy our own life and the person itself. In the other hand, this novel can also be analyzed using Sigman Freud's theory of psychology development. It has understanding of anxiety concept by Sigman Freud. Lara Jean was very anxious about conflict and relationship romance. It will affect the other concept based on Sigman Freud's theory of psychology developments. I hope that the result of this research will give benefits to everyone who wants the same cases as the writer does.
