

CHAPTER 4

CONCLUSION AND SUGGESTION

After describing the findings and also discussion in the previous chapter, the researcher is going to discuss the conclusion and give suggestion in this chapter. The conclusion of the term paper and suggestion for the teachers will be discussed as follows:

4.1 Conclusion

Based on the explanation in the previous chapter, the researcher has concluded that grammatical errors found in students' writing of Grade 7 students in *Grow English Course* are consisting of 4 types of error. The errors are Error of Selection, Error of Addition, Error of Omission, and Error of Ordering. Student number 1 has 3 errors of Error of Omission, 5 of Errors of Selection and no error of Error of Addition and Error of Ordering. Student number 2 has 2 errors of Error of Addition, 1 of Error of Ordering, and no error of Error of Omission and Error of Selection. Student number 3 has 3 errors of Error of Omission, 1 of Error of Addition, 2 of Error of Selection, and no error of Error of Ordering. Then, Student number 4 has 6 errors of Error of Omission and 3 of Error of Selection. Student number 5 has 6 errors of Errors of Omission, 2 of Error of Addition, 2 of Errors of Selection, and no error of Error of Ordering, while Student number 6 has 3 errors of Error of Omission, 3 of Errors of Addition, 4 of Error of Selection, and no error of Error of Ordering. And, the last is Student number 7 who has 4 Errors of Omission, 1 of Error of Selection, and no error of Error of Addition and Error of Ordering. The total errors from Error of Omission are 25, Error of Addition is 8, Error of Selection is 17, and Error of Ordering is 1. So, the total from all errors that the students make is 51.

Then, the students make the errors because the students forget about the grammatical rules. For Error of Omission, the students like to omit the important thing in the sentence and it should appear in the right place. Besides that, the students also make Error of Addition. The students add unnecessary item which should not appear in the sentence. Then, Error of Selection also occurs in students writing. The students do not pay attention of grammatical rules. Last, the students

make Error of Ordering. This error happens because it is indicated by the incorrect placement of certain words.

The last, the researcher solves the problem on grammatical error found by discusses in detail the types of error example and the analysis causes by the error for each student. After that, the researcher also provides an alternative correct answer to correct the sentence.
