

## BAB V

### KESIMPULAN DAN SARAN

#### 5.1 Kesimpulan

Pada laporan skripsi ini telah dibuat aplikasi berbasis web sebagai media informasi kerja praktek / skripsi dan sarana komunikasi untuk mempermudah interaksi antara mahasiswa dengan dosen pembimbing serta ketua jurusan. Aplikasi mempunyai fitur dapat mengelola informasi seminar, mengirim dan menerima pesan/file, terdapat proses bimbingan. Aplikasi mempermudah penilaian, penjadwalan dan pelaporan seminar kerja praktek dan skripsi dalam format (HTML, \*.rff, \*.xls) sehingga proses menjadi lebih efisien.

Keamanan aplikasi, di dalam aplikasi ada beberapa keamanan yang sangat berguna bagi *user*, diantaranya proses login dan *security image*.

#### 5.2 Saran

Aplikasi diharapkan dapat dihubungkan ke nilai akademik, jadi pemasukan nilai seminar kerja praktek atau skripsi bisa langsung ke nilai akademik.

# LAMPIRAN 1

## HASIL WAWANCARA

**Nara sumber** : Timor Setyaningsih,ST,MTI

**Status** : Dosen

**Jabatan** : Sekretaris Jurusan

*Track Record Wawancara :*

1. Bagaimanakah persyaratan untuk mengambil kerja praktek di fakultas teknik umumnya atau di teknik informatika khususnya ?

Jawab:

Di teknik infromatika mahasiswa harus sudah atau akan menempuh SKS 100, baru bisa mengambil kerja praktek.

Namun jika di tekniknya sendiri mungkin hampir sama dengan di teknik informatika.

2. Pertanyaan yang sama sperti no.1, tapi konteksnya untuk skripsi?

Jawab:

Untuk skripsi di teknik informatika sendiri, mahasiswa harus sudah melaksanakan kerja praktek, baru mahasiswa bisa lanjut untuk skripsi.

3. Untuk pengajuan dosen pembimbing dan judul, apakah ada prosedur khusus?

Jawab:

Untuk pengajuan DP dan Judul, mahasiswa harus memberitahukan dulu ke ketua jurusan, baru ketua jurusan akan konfirmasi ke dosen yang bersangkutan.

Sedangkan judul, itukan hak mahasiswa jika di skripsi akan ada yang namanya seminar judul, nah... disitu di setujuinya atau tidak judul mahasiswa.

4. Apa aja yang dipersiapkan ketua jurusan jika akan melaksanakan seminar?

Jawab:

Seorang KAJUR terlebih dahulu membuat jadwal mahasiswa mana saja yang sudah siap (berkas/aplikasi), kemudian ditentukan siapa saja yang akan jadi penguji di seminar yang akan dilaksanakan.

5. Bagaimana rincian penilai seminar?

Jawab:

Penilaian dilakukan oleh tiap-tiap penguji, kemudian oleh kajar akan dibuatkan berita acara seminar.

Untuk rincian nilainya adalah : Isi Materi 40%, Peng. Bidang 30%, dan presentasi 30%.

6. Bagaimana ibu melakukan bimbingan kepada mahasiswa?

Jawab:

Bimbingan bisa dilaksanakan secara langsung tatap muka, atau jika tidak memungkinkan ketemu, mahasiswa bisa mengirimkan berkas-berkas laporannya melalui e-mail.

Jakarta, 10 November 2009
