

## BAB V

### KESIMPULAN DAN SARAN

#### 5.1 Kesimpulan

Berdasarkan analisa sistem yang telah dilakukan dan analisa perancangan Aplikasi SMS Broadcast pada Universitas Darma Persada yang telah dibuat, maka didapat kesimpulan sebagai berikut:

- a. Aplikasi SMS Broadcast ini menyediakan fitur-fitur untuk memudahkan para *stakeholder* kampus untuk mendapatkan sebuah informasi secara cepat dan tepat. Serta memudahkan pihak kampus untuk menyebarkan informasinya langsung ke orang yang dituju baik secara personal maupun secara massal. Dengan fitur tambahan yaitu *SMS Schedule*, yang mampu mengirimkan pesan dengan mengatur waktu yang dapat ditentukan sendiri kapan pengiriman pesan akan dilakukan.
- b. Aplikasi SMS Broadcast ini dilengkapi dengan sistem *login* dimana penggunaanya diharuskan melalui sistem ini terlebih dahulu sebelum akhirnya dapat menggunakannya. Sistem ini dimaksudkan agar tidak semua orang bisa mengaksesnya dan hanya orang tertentu saja yang berhak memiliki akun untuk dapat bisa menggunakan aplikasi ini.

#### 5.2 Saran

Untuk memperlancar dalam penyampaian informasi dan meningkatkan aktifitas perkuliahan maka:

- a. Universitas Darma Persada dapat mensosialisasikan Aplikasi SMS Broadcast ini ke setiap *stakeholder* kampus khususnya bagi karyawan maupun dosen yang nantinya akan menggunakan aplikasi ini.

- b. Universitas Darma Persada menginformasikan nomor SMS center yang nantinya akan digunakan oleh aplikasi SMS Broadcast dan menjelaskan *keyword* masing-masing fakultas serta tiap-tiap divisi dilingkungan Universitas Darma Persada.
- c. Untuk menjaga kinerja aplikasi dan modem diharapkan administrator menghentikan *service* setelah aplikasi tidak lagi digunakan dalam satu harinya.
- d. User baik Administrator maupun Operator pengguna aplikasi harap memperhatikan gambar sinyal dan gambar baterai di menu home aplikasi untuk memastikan *service* telah aktif sehingga aplikasi Gammu dapat mengelola modem dan database serta dapat menerima dan mengirim SMS dengan baik.
- e. Untuk pembaruan dari aplikasi Gammu yang bersifat *freeware*, Administrator atau pengelola aplikasi dapat memperbaruinya dengan mengunduh aplikasi tersebut secara gratis di internet di situs <http://wammu.eu/gammu/>.

176 <p><em>Aplikasi SMS Broadcast <a
177 href="http://www.unsada.ac.id" target="_blank">
178 Universitas Darma Persada</a> </em></p>
179 <p>Aplikasi SMS Broadcast ini
180 digunakan untuk melakukan pengiriman pesan sms ke satu
181 nomor ponsel maupun ke banyak nomor secara massal.
182 Menyebarkan berbagai informasi mengenai kegiatan kampus
183 maupun akademik ke nomor yang sudah terdaftar
184 sebelumnya. Aplikasi SMS Broadcast ini memiliki fitur yang
185 bisa melakukan pengiriman pesan ke group yang bisa
186 ditentukan sendiri anggota groupnya dan melakukan
187 pengiriman pesan yang bisa ditentukan waktu pengirimannya
188 <em>(SMS Schedule)</em></p><br>
189 <p><em>Mohon diperhatikan sebelum
190 anda melakukan pengiriman pesan</em></p>
191 <p>Pastikan Service nya sudah
192 diaktifkan oleh Administrator dengan memperhatikan icon
193 <em>Baterai
194 </em> dibesarkan sisi bawah kanan pada halaman
195 <em>home</em>. Jika <em>Baterai</em> terlihat berwarna
196 <b>putih</b>
197 mohon hubungi Administrator untuk mengaktifkan Service.
198 Selanjutnya untuk menghindari kegagalan pengiriman pesan
199 mohon memperhatikan tanda <em> sinyal </em>  pada bagian bawah
201 kanan halaman <em>home</em>. Jika kualitas <em>Sinyal
202 </em>  terlihat
203 rendah sebaiknya jangan melakukan pengiriman pesan
204 dahulu. </p>
