

## **BAB V**

### **PENUTUP**

#### **5.1. Kesimpulan**

Berdasarkan uraian yang telah dibahas pada bab –bab sebelumnya, penulis mencoba untuk menarik kesimpulan mengenai rancangan sistem distribusi barang pada CV. TLH COMPUTER adalah sebagai berikut:

- Bagian Operator distribusi terkadang kesulitan membuat dokumen – dokumen yang dibutuhkan, karena proses pengarsipannya masih kurang baik sehingga tidak efektif dan efisien.
- Data yang disimpan harus dilakukan pengurutan data pada saat penambahan data yang cukup banyak
- Pembuatan laporan masih dalam aplikasi Microsoft excel sehingga penyajian informasi mengenai laporan kurang cepat dan tepat.
- Dalam pengolahan data belum adanya security data sehingga kurangnya keamanan data yang diolah.
- Proses penyimpanan data akan terlihat lebih rapi dan aman, karena tersimpan ke dalam file – file di komputer yang sewaktu –waktu dapat dilihat dan di cetak sesuai kebutuhan.
- Dengan penggunaan aplikasi VB versi 6.0 untuk pengolahan data pada sistem distribusi barang akan terciptanya pengolahan data yang lebih efektif dan efisien.

## 5.2. Saran

Dalam usaha melengkapi keserasian, maka penulis mencoba memberikan saran – saran. Hal ini dimaksudkan untuk memudahkan dan mengefisienkan kegiatan transaksi. Adapun saran – saran penulis adalah sebagai berikut:

- Penulis berharap sistem distribusi barang yang telah penulis rancang ini dapat lebih efektif dan efisien dalam pengolahan data
- Menempatkan operator distribusi yang bertanggung jawab dalam hal mengoperasikan komputer dengan baik, maintenance dalam hardware dan software maupun dalam hal disiplin kerja.
- Perlu dibuatnya *backup* dari data – data yang digunakan dalam sistem distribusi ini untuk mengantisipasi hal – hal yang tidak diinginkan.

Demikian akhir dari penulisan ini yang dirangkum dalam kesimpulan dan saran.

Harapan penulis semoga apa yang dibuat dapat bermanfaat bagi pembaca.
