

CHAPTER II

THE REFLECTION OF PROLETARIAT INSURGENCY AGAINST THE CAPITALISTS IN THE MOVIE SCRIPT *IN TIME*

In this paper, I will analyze this movie through intrinsic approach such as: characterization, setting, and plot in the movie of *In Time* by using the concept from chapter one which I have explained in the previous chapter. I would like to analyze through *Showing and Telling methods*. I will use the five elements of setting which will support the theme and characterization in this analysis. Not only setting, I also use plot with the part of plot such as *exposition, complication, crisis, falling action, and resolution*.

A. Characterization

In order to analyze the characterization *In Time* movie, I will apply method of characterization *Showing method through dialogue and Telling method through appearance*. I will analyze several characters in this movie that are Will Salas, Philippe Weis & Sylvia Weis. They are all main characters of this movie. They are the key of this analysis because I see the suitable characters from them in this movie: First, I would like to start with Will Salas, and second Sylvia Weis and then the last Philippe Weis.

1. Will Salas

a. Avengeful

- Showing method: characterization through dialogue

Will Salas lost both of his parents. His father was dead because of self-defense when fighting with the time stealer and his mother was dead as well when she just finished paying her debts in the Weis bank, and then she went to meet Will Salas in the Dayton area by bus but she did not have enough time to pay the bus because the price for the bus was rising suddenly.

The payment was usually one hour but it had changed to be two hours. So, she had to run quickly to meet Will Salas but she did not make it. She was out of time. Then, she died in the arms of Will Salas. After that Will Salas decided to go to the Greenwich where the capitalists were living to take revenge.

TAXI DRIVER

Am I in the right place?

We don't normally make pickups in this Zone.

WILL SALAS

I was lost.

ZONE KEEPER

Please deposit one month.

ZONE KEEPER

Please deposit two months.

WILL SALAS

There are more of these than I remember.

WILL SALAS

That was a year.

TAXI DRIVER

Welcome to New Greenwich.

What are you really doing here?

WILL SALAS

I'm going to take them for everything they've got.

I'm going to make them pay.¹⁷

He went to the Greenwich by a taxi he rented. This was the first time for him to go to the rich zone. He had to deposit a lot of time to pass the gates. It was one month till one year to pass the zone keeper, and this was quite a surprise to him. As I told you before he would like to revenge on the capitalist. He did not care how much the cost was. He would take what the capitalists had been stolen from the poor people. The suffering of poor people and his hatred against the capitalist made him firm to change this bad condition. Another quotation to prove that he had an avenging character when he went to Philippe Weis's house to take one million dollars from him.

WILL SALAS

here really is a man with a million years.

PHILIPPE WEIS

That's my first million.

It won't be my last.

WILL SALAS

Do you know how much good it could do?

PHILIPPE WEIS

I know how much harm it could do.

Try to understand,

even if you gave a year to a million people,

¹⁷ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.5)

you're just prolonging their agony.

SYLVIA WEIS

We're prolonging their lives!

PHILIPPE WEIS

*Giving the wrong zone with a million years,
It could cripple the system.*

WILL SALAS

Let's hope so.¹⁸

As we can see in the quotation above. It is clearly prove that he really would like to revenge againts Philippe Weis. Will Salas stole the time from Philippe Weis to help the poor people, and also to hurt Philippe Weis. When he succeed to steal one million years. He would share the time to his people and he could prolong their life. If this happened he would be able to cripple the system too in all zones, because all the people would start to go to the New Greenwich.

b. Brave

- Showing method: characterization through dialogue

Will Salas is a brave person, when he had opportunity to the New Greenwich zone. He acted like a rich man. He rented the luxurious hotel and also food, but still the people from this zone could notice that he was not original from New Greenwich. Will Salas was planning to steal back what the rich people had taken from the poor people.

So, the first step that he did, he was starting his fortune with playing poker or gambling with the rich people. He was really sure that he was going to win. The quotation below proved that he was a daredevil person who did not worry about the steps he took even though it was risky

PHILIPPE WEIS

Bet you fifty years.

PHILIPPE WEIS

You must be young.

*When you've been twenty five
for eighty five yearslike I have,
knowing only a random act of violence
could take your life, you learn to appreciate
what you have.*

¹⁸ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.18)

WILL SALAS

And you seem to have a lot to appreciate.

PHILIPPE WEIS

Of course, some think what we have is unfair.

The time difference between zones.

WILL SALAS

I've heard that.

PHILIPPE WEIS

But isn't this just the next logical step in our evolution?

And has evolution always been unfair?

It's always been survival of the fittest.

Raise you another two centuries.¹⁹

At the poker table Will Salas played gambling with Philippe Weis and another capitalists. Another players had lost the game and now it was only Philippe Weis and Will Salas. Philippe Salas was suspicious that he was not from Greenwich but Ghetto area. He started to say some statements that humiliated Will Salas, but He did not care about what he said.

Will Salas felt so much confidence about him self, Philippe Weis asked Will Salas for a bet. The first bet was fifty years which was really a big time but Will Salas was not afraid of that at all. He accepted and deposited the fifty years. While they were still playing the gambling Philippe Weis continued talking to Will Salas about the differences between rich and poor zones, and he stated that this was an our next evolution which was the strongest and able to survive. They would be able to stay alive and become a winner.

Both of them believed that they had good cards. So, Philippe Weis invited Will Salas for the last bet. He deposited two centuries time and Will Salas accepted his bet even though it was really a big time, because he believed he would win the game. Philippe Weis was impressed with his brave he did not care about the risk. We can see it in the next quotation below

PHILIPPE WEIS

This is merely Darwinian capitalism.

Natural selection.

WILL SALAS

Absolutely.

¹⁹ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.6)

*The strong survive and
I think your hand is weak.
I call.*
PHILIPPE WEIS
*It's your limit,
Mr. Salas.
Thirteen figures.
Well played.
That was some risk.*
WILL SALAS
*It wasn't a risk.
No offense.
I knew I was going to win.²⁰*

Will Salas was not worried about his life time. He did not think about the risk if he would lose the game. He was really sure that he was going to win the gambling. He had ambition to take what the capitalists took from the poor people. Will Salas did not have much time left his hand as he deposited all his time.

He had only thirty second left in his hand. The present for the winner would get more than one millennium time and it was like more than one thousand years. Both of them revealed the cards and Will Salas had won the gambling which was really surprising Philippe Weis but this lost was nothing for him because he was rich. He was the owner of the rich bank. So, he had a lot of time for the next gambling.

After winning the gambling Will Salas met Sylvia Weis, the daughter of Philippe Weis. She invited Will Salas for the next gambling at the party tomorrow after that Will Salas left the house with buying a new luxurious car. Another example of his braveness when he met Fortis and his men in a Hotel. He was not afraid of dying. I could say that because he succeed to escape a lot of times from the timekeepers.

He always move to the different places from one place to the other place to dodge from the Timekeepers and Fortis Gang, but this time he was caught in the Hotel which he rented the whole rooms inside. They were caught by the Fortis gang because a person from Dayton area had told Fortis Gang about the presence of

²⁰ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid,p.6)

Will Salas. The quotation below was situation where Will Salas met face to face with the Fortis gang.

After taking a long time to look for them finally they met each other. Fortis Gang was a group where he always stole people's time if a person had a lot of times in his/her hand they would fight or kill the person if they did not want to give their time. Fortis gang was also a friend of Raymond Leon (Timekeeper). Therefore, he did not catch the Fortis gang.

Normally, Fortis always killed the people who had a lot of time in their hand but he gave a chance to Will Salas for a handshakes fighting game in the beginning Will Salas refused that because he thought either he won or not Fortis would kill him but Fortis threatened him back if he did not want to do it he would kill him directly. Finally, Will Salas accepted the challenge.

WILL SALAS

And her?

FORTIS

After I take you, I'll take her

Oh, yeah. And I'll take her time.

And then I'll collect

my reward for making everything right in the world.

[Will looks at Sylvia who shakes her head but takes

Fortis's hand, eventually he gains the upper hand,

reaches into his boots pulls out a gun shoots

Fortis's men and drains Fortis of all his time

FORTIS

Of course it's your friend

I'm most happy to run into again.

*You've been causing a lot of trouble,
which is normally my job.*

Don't you understand,

*the reason Timekeepers leave me alone is
cause I have boundaries.*

I steal from my own people.

*You're sure things are bad
when I have to restore order.*

Fortunately for you,

I don't like to kill men in cold blood.

I'd do it, but uh...I prefer not to.

I think you deserve a fighting chance.

We play to zero.

WILL SALAS

What's the point?

*I lose I die.
I win, they kill me.
FORTIS
If you don't fight,
I'll kill you now.²¹*

As I told you Will Salas was a brave person. He knew if he lost the game he would die, but he knew the trick how to win the handshakes fighting game as he was learning from his father who was already dead. He won the game against Fortis. Fortis was dead because he lost his time and Will Salas killed all Fortis's subordinates by shooting them with a gun. Will Salas left the Hotel and escaped to the new place before the timekeepers and caught him.

c. Insurrectionist

- Showing method: characterization through dialogue

After Will Salas escaped from the timekeepers. Sylvia Weis planned to rob the Weis Bank. She was willing to do this robbing with Will Salas. Will Salas really would like to help the poor people because he felt and experienced their suffering. He did not care about breaking the rules.

He always saw the people dying on the street and it was really sad. He did not have heart to see the situation like this everyday. He would rob the Weis Bank eventhough he had to be pursued by the timekeepers and he had to bear the risks. We can see it in the quotation how Will Salas explained the condition of the poor people.

SYLVIA WEIS
*Will, if you get a lot of time,
are you really gonna give it away?*
WILL SALAS
*I've only ever had a day.
How much do you need?
How can you live with yourself
watching people die right next to you?*
SYLVIA WEIS
*You don't watch.
You close your eyes.*

²¹ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.16)

I can help you get all the time you want.
WILL SALAS
Let's go
SYLVIA WEIS
*Ladies and gentlemen,
I am happy to announce that
Weis Timelenders is now offering interest-free
loans with no payments.*
WILL SALAS
Free.
SYLVIA WEIS
So help yourselves and take a day.
WILL SALAS
*Take a month.
Hell, take a year.
Come on.
Help yourselves!
Take it.*
SYLVIA WEIS
*Take the time.
it's free.²²*

Will Salas broke into the Weis Bank by the truck he drove and then he took a lot of times that he needed. After he finished taking the time he said to the poor people to take this free loans. They could take as much as they wanted for survival. They could take whether it was one day, one month or even one year. The poor people did not have to worry about giving it back the time because this was totally free loans. The people were so surprise and happy to hear this announcement.

They all took the time with a lot of time in their hands and then Will Salas went by his truck with the smile face. After this robbing time keepers came to the Weis Bank and then everyone ran away. Another quotation that prove that Will Salas was an insurrectionist when he came to Philippe Weis house and hostaged him with a gun in Philippe Weis' head.

SYLVIA WEIS
*I'm Sylvia Weis.
I want to surrender, but only to my father.*
PHILIPPE WEIS
*Sylvia.
[Sylvia puts her gun down on the ground]*

²² <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.19)

SYLVIA WEIS

Hello, daddy.

[she goes to take a step forward]

GUARD #1

Stay where you are!

SYLVIA WEIS

You've hired more guards since I last saw you.

WILL SALAS

Thanks to you, I need them.

SYLVIA WEIS

One too many.

[suddenly Will appears behind Weis and points his gun at his head]

WILL SALAS

Guns down! Now!

[to his guards]

PHILIPPE WEIS

Do it.

[the guards put their guns down]

WILL SALAS

Let's go for a ride.²³

As we can see in the script movie above that Will Salas and Sylvia Weis had a planning to hostage Philippe Weis. At first, Sylvia Weis was pretending to surrender her self to his father and then Will Salas masqueraded to be one of Philippe Weis guards. When Philippe Weis started to believe what Sylvia Weis said about surrendering her self to his father. Will Salas put his gun in Philippe Weis head. Philippe Weis begun to worry about his safety. He asked all his guards to put their guns down. In this case we can see that Will Salas is insurrectionist person that does not scare to harm the people.

d. Heroic

- Showing method: characterization through dialogue

The character from Will Salas is also heroic. He succeed to steal the time from the Sylvia Weis's father Philippes Weis. At first, he did not believe that there was a man with one million years time but now he really believed it. He planned this robbing to help a lot of poor people. He would like to share the time to them so that they could survive from this bad condition. This planning on stealing the time

²³ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.17)

also had another good effect If this time was given to all poor people. As we can see in the quotation below

WILL SALAS

Quality time.

There really is a man with a million years.

PHILIPPE WEIS

That's my first million.

It won't be my last.

WILL SALAS

Do you know how much good it could do?

PHILIPPE WEIS

I know how much harm it could do.

Try to understand,

*even if you gave a year to a million people,
you're just prolonging their agony.*

WILL SALAS

We're prolonging their lives!

PHILIPPE WEIS

*Giving the wrong zone with a million years,
it could cripple the system.*

WILL SALAS

Let's hope so.²⁴

The one million years time that was stolen by Will Salas. It could cripple the system because they would have a lot of time in their hand. So that everyone would be able go to the New Greenwich which was the zone for the rich people. Will Salas saved a lot of poor people from this bad condition. Everyone was happy by what he was doing.

Will Salas was not trying to prolong their agony but he would like to prolong their life from the hardship of life that they were facing everyday. He did not want to see people dying everywhere because they were fighting for survival. Below is the quotation where the poor people are waiting for him for the capsule of one million years time from him.

SYLVIA WEIS

Keep going! Keep going!

WILL SALAS

We're close! We're okay!

We're okay!

²⁴ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.18)

MAYA
You're late.
Will SALAS
Need a minute?
Go. Go.
THE POOR
Where's our capsule?
WILL SALAS
Too late.
Lost a lot of time,
Mr. Leon.
RAYMOND LEON
Looks like you're about out yourself.
THE POOR
Time!-There's time!
WILL SALAS
Move! Move!
RAYMOND LEON
You, get out! Get out!
WILL SALAS
We gotta get to Livingston.²⁵

Will Salas got the capsule of one million years time from Philippe Weis but now he got in trouble because he was pursuing by the timekeeper, Raymond Leon. Will Salas was shoot by the timekeepers from many different directions but he could avoid it. He finally arrived in the Dayton area and gave the capsule secretly to Maya, she was a friend of Will Salas that was trustworthy.

Raymond Leon succeed to stop Will Salas but he was late because the capsule of one million years time was not with him anymore. The atmosphere became tumultuous and chaos when the poor people begun to realize that the capsule had been given to Maya. Everyone was running and snatcing towards her to ask for the time.

Will Salas took this chance to run in the crowds and Raymond Leon kept running after him but the poor people tried to hinder Raymond Leon to catch Will Salas because he already helped them. Finally, Will Salas succeed to escape to the Livingston. Another quotation that prove that he was a hero for other people when he helped Henry Hamilton from the pursuit of Fortis gang

²⁵ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.19)

FORTIS

*My name's Fortis.
And that, sir, is a very nice watch.
Do you mind if I try it on?
I think it would suit me.
I'll tell you what.
I'll fight you for it.
Come on.
I'm an old man. Turned 75 last week.*

HENRY HAMILTON

I need a moment.

WILL SALAS

*You ready to go?
Ready to go.
Let's get you out of here.*

FORTIS

Get him!

HENRY HAMILTON

*Stop. What are you doing?
I can take care of myself.*

WILL SALAS

Yeah, it looked like it.

HENRY HAMILTON

I know what I'm doing.

WILL SALAS

Run. Run!

Come on!

Here!

*Hurry!*²⁶

As we can see in the conversation above Will Salas and Henry Hamilton met each other in Bar. Henry Hamilton had been living for long time because he had a lot of time in his hand. Someday, he felt bored to live for long time. So, he went to the Bar to remove his stress. Suddenly, Fortis and his men knew that this rich in the Bar. They went to this bar to steal his time. Fortis asked him to fight with him. Henry Hamilton who did not know what to do and also in drunk condition. Finally, he accepted Fortis challenge, but before starting to fight he asked for a moment to go to the Toilet. In here, Will Salas secretly was listening their conversation and he started to hide in the Toilet. When Henry Hamilton finished from the Toilet. Will Salas kicked Fortis's guards and he took Henry Hamilton ran together from the pursuit of Fortis's gang. Fortis asked all his guards to run after

²⁶ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.3)

them but they could not find them. Finally Will Salas succeed to help Henry Hamilton from the pursuit of fortis's gang because they were hiding in an empty building.

e. **Loving**

- Telling method: characterization through appearance

The last character of Will Salas is loving. We can see it when he celebrated his mother, Rachel's birthday. Will Salas was born in a poor area called Ghetto. Since he was kid his father was dead because someone had killed him. So, he lived with his mother only. Everyday he had to go to work in the Garment district to help his mother for their survival. His mother looked young eventhough her age was fifty years old because everyone was genetically stop ageing at twenty five. As we can see in the quotation below how Will Salas really loved his mother so much.

RACHEL SALAS

Where did it go?

WILL SALAS

On you.

[he shows her the bottle of champagne he's bought her]

WILL SALAS

Okay, drink in your greenwich. Happy fiftieth!

[he hugs her and they dance]

RACHEL SALAS

*Fifty? That's right.*²⁷

Based on the direct comment of the narrator in that conversation we can see it that Will Salas was loving and caring her mother. As she was the only one that he had in his family. He was not only loving other poor people but also he loved his family. In the morning after he woke up from his sleeping. He brought her mother a bottle of champagne and hugged his mother after that he asked her mother to dance with him. It had been fifty years Will Salas lived with his mother. Will Salas felt grateful that he could still keep her mother well. He would be so sad if he lost his mother. Another example of Will Salas loving character when he went to the Bar to meet his friend, Borel but accidentally he was meeting with Henry Hamilton who had more that one millennium time in his hand. Below is the

²⁷ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.1)

quotation of the narrator that describing Will Salas as the one who cared with other people.

*[Will tries to warn the guy at the bar,
who has over a millennium in time buying drinks for everyone at the bar]*

WILL SALAS

*You need to get out of here.
Somebody's gonna clean that clock.*

HENRY HAMILTON

Yes.

WILLSALAS

*I mean, they are going to rob you, going to kill you.
You can't take that much time and let you live to tell about it.²⁸*

Henry Hamilton spent his time for drinking in the Bar. Luckily, he met with Will Salas. As we can see from the direct comment of the narrator that Will Salas tried to remind Henry Hamilton that he had to be careful with the time that he had because there would be a lot of people who would like to get that time. Especially Fortis and his men who always stole someone's time. He drank in the Bar in Dayton district where the poor worker lived in that district. Everyone in the Bar noticed that Henry Hamilton was not from this district but the New Greenwich district because he had so much in his hand. Everyone would fight and kill to get his time. Will Salas cared with Henry Hamilton so he warned him to keep his time because he did not want something bad happen to Henry Hamilton.

2. Sylvia Weis

a. Persistent

- Showing method: characterization through dialogue

I see the persistent character of Sylvia Weis. After escaping from the timekeepers. Will Salas saw the price of goods was getting higher everyday. He was hopeless to see this condition because by stealing the time from the Weis bank. It wouldn't stop increasing the price of goods and it also did not change the condition of poor people. As we can see in the script below

WILL SALAS

It's over.

²⁸ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.2)

We lost.
We're not doing it again.
SYLVIA WEIS
At least we're trying.
WILL SALAS
No, you don't understand.
All they have to do is keep raising the cost of living.
A hundred years, two, a thousand.
It does nothing.
SYLVIA WEIS
So what?
*We just stop fighting?*²⁹

The conversation above showed that Will Salas gave up to see the condition of his people that was getting more suffering, but Sylvia Weis did not give up. She was trying to cheer him up. Sylvia Weis did not want Will Salas' effort to help the poor people become useless and end here. Sylvia Weis kept believing that there is a way to fix this bad condition. She pushed Will Salas to not give up with all raising prices that is done by the capitalists.

Another example of persistent character of Sylvia Weis when Will Salas started to despair because stealing that he did. It did not change the condition of the poor people. Sylvia Weis assured him to not give up and she had a planning to hurt the capitalists or Philippe Weis or stealing one million years time from them. As we can see in the quotation below

WILL SALAS
We can't win.
We can't hurt them.
The time we're taking makes no damn difference!
SYLVIA WEIS
What would?
What would hurt them?
WILL SALAS
A million years.
You got a million years on you?
SYLVIA WEIS
I guess it really would take a million years
*Let's give up.*³⁰

²⁹ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.11)

³⁰ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.11)

So, Will Salas would be pretending to be a body guard of Philippe Weis and Sylvia Weis would distract them on surrendering her self to her own father, and Will Salas would hostage Philippe Weis and then he would show Will Salas the way to get one million years time. Will Salas hostaged Philippe Weis. Finally, this man brought him to the place where one million years of time was hiding.

Sylvia Weis pointed her gun to his own father while they were all going to the door of one million years of time. The door had been put a code but Sylvia Weis knew that the code and it was not her birthday but Darwin's birthday. Will Salas finally succeed to open the door. He took one million years time. This was the first one million years time Philippe Weis.

He said, it was going to cripple the system if Will Salas stole this big time and he would gave this one million years time to the poor people because as the result everyone in the poor zone would be able to go to the New Greenwich which was the zone for the rich people, and actually this was something what Will Salas hoped. This all could be happend because of Sylvia Weis' persistent character that brought him to a big hope for the poor people.

3. Philippe Weis

a. Arrogant

- Showing method: characterization through dialogue

Philippe Weis was the owner of the Weis Bank. He had a lot of time in his company. He never felt the difficult life of the poor people. He was the one who invited Will Salas to his house to play gambling with him, but he did not know that he was facing someone from Ghetto area that was accused as a thief by the timekeepers.

He would like to rescue his daughter that was hostaged by Will Salas. He would do anything to save his daughter eventhough he had to use dirty way to set her free. The conversation between Philippe Weis and Raymond Leon below showed us how arrogant Philippe Weis was.

PHILIPPE WEIS

When can we hope for a rescue?

RAYMOND LEON

*I believe that's the point,
she doesn't appear to want to be rescued.*

PHILIPPE WEIS

Mr. Leon, Raymond.

May I call you Raymond?

I blame myself.

I invited the man to my home.

He had so much time,

how as I supposed to know?

*Of course, Sylvia brought this on herself
by her lack of vigilance.*

That's why I always try to keep her close.

But she is clearly under Will Salas's control.

If it's a matter of resources,

I'm happy to make a contribution.

It's a scandal what we pay our Timekeepers.

RAYMOND LEON

I've issued a warrant for your daughter's arrest.

If she contact you and you assist her in any way,

I will issue a warrant for your arrest.

PHILIPPE WEIS

There's nothing I cannot buy.

Now, how many of my years do you want?

RAYMOND LEON

There aren't enough years,

even in your lifetime,

Mr. Weis. Goodnight.³¹

Raymond Leon came to his house to explain the situation and helped him to catch Will Salas and also to save his daughter from him. In this case, Raymond Leon refused to save his daughter because he seemed like to cooperate with Will Salas to steal the time from the Weis Bank to help the poor people.

He would arrest his daughter together with Will Salas, and if he was trying to assist his daughter. Raymond Leon would arrest Philippe Weis as well, but he could not accept his explanation to not save his daughter. So, he was playing dirty way. He was trying to bribe Raymond Leon by offering a lot of time to him.

Unfortunately, the timekeepers did not interest with his offering. He said, even Philippe Weis life time would not be enough and able to reconcile the situation.

³¹ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.15)

Philippe Weis was upset because he thought with a lot of time he had. It would solve the problem. Another example of Philippe Weis arrogant character when he was gambling with Will Salas on the table. We can see in the conversation below

PHILIPPE WEIS

You must be young.

When you've been twenty five for eighty five years like I have, knowing only a random act of violence could take your life, you learn to appreciate what you have.

WILL SALAS

And you seem to have a lot to appreciate.

PHILIPPE WEIS

Of course, some think what we have is unfair.

The time difference between zones.

WILL SALAS

I've heard that.

PHILIPPE WEIS

But isn't this just the next logical step in our evolution?

And has evolution always been unfair?

It's always been survival of the fittest.

Raise you another two centuries.³²

Will Salas finally could go to the New Greenwich zone. Will Salas went to this place to take back what they stole from the poor people. Will Salas arrived in a building where the people playing gambling. So far, he won several games, and he got a lot of time in his hand. Philippe Weis came to play gambling also. He suspected that Will Salas was not from this zone because he never saw him before. So, he talked to Will Salas as if insulting him, but he did not care because he knew that Philippe Weis was actually weak. This could be seen with a lot of guards he had. Moreover, on the game Philippe Weis bet two centuries in gambling to face Will Salas as if Philippe Weis would like to show his richness. From the conversation above we know that Phillippe Weis is an arrogant person.

b. Materialist

- Showing method: characterization through dialogue

In this movie beside Philippe Weis was described as an arrogant person. He was also as a materialist. He always bothered the poor people. He made a lot of

³² <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.16)

policies that made difficult the poor people. One of his policies was increasing the rating of loan interest. As we can see in the quotation below when the poor woman was trying to borrow the time from Philippe Weis' employee in Weis Bank but the poor person thought two times to borrow the time because the loan interest was really big.

THE POOR

I need to borrow a month.

What's the interest?

PHILIPPE WEIS' EMPLOYEE

Today's rate, 30%.

THE POOR

I can't pay it back.

PHILIPPE WEIS' EMPLOYEE

We can always come to some arrangement³³

Philippe Weis would like to get more advantages from this situation. He would like to get richer and richer. So, he could have more power to control the poor people. He did not care about the trouble that he made to the poor people. He was just caring about getting more time in order to be able to live longer. The poor people did not have many options beside working to get more time or borrowing the time from the Weis Bank. So, they could survive from this bad life. This rating would always increase at a time, and this bad condition would always harm the life of the poor people.

These poor people would die slowly anytime and anywhere. If they did not have time left in their hand. This case that made my reason why Philippe Weis was deserved to be called as the materialist because he made more time with using any ways eventhough it was a bad way. Another example of materialist character of Philippe Weis when he was hostaged by Will Salas and Sylvia Weis and forching him to show them one million years time.

WILL SALAS

Quality time.

There really is a man with a million years.

PHILIPPE WEIS

That's my first million. It won't be my last.

WILL SALAS

Do you know how much good it could do?

³³ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.15)

PHILIPPE WEIS

I know how much harm it could do. Try to understand, even if you gave a year to a million people, you're just prolonging their agony.

SYLVIA WEIS

*We're prolonging their lives!*³⁴

The dialogue above showed how materialist Philippe Weis. When he took them to the one million years time. He said, that this one million years time was his first one million and it will not be last. This statement showed how he managed to steal the time again from the poor people and saved a lot of time for him self only so that he could live for a long time and he did not care about the hardship of other people. For Philippe Weis the most important thing was to collect more time for him self. It could be proved when he did not want to spend any "Time, (Money)" when his daughter, Sylvia Weis was kidnapped by Will Salas.

B. Setting

Setting is term that encompasses either the physical local that frames the action and the time of day or year, the climatic conditions, and the historical period during which the action take place. Setting helps the reader visualize the action of the work, and thus adds credibility and authenticity to the characters. In order to analyze the setting in the "In Time" movie, the writer, as mentioned in the Chapter one, I will use the five functions of the setting, and those are:

1. Setting as background for action

Background is extensive and highly developed, where setting in the form costume, manners, events, and institution, all certain time and place is rendered in minute detail to give a sense. It will provide the beginning of the story. At the beginning of this movie, the setting as background is Time. Will Salas woke up from his sleep. He told that everyone was genetically engineered to stop ageing at twenty five. After the people reached that age. They could only have time one more year to live unless they worked so hard to live longer for survival. The money does not exist anymore. The time has changed the money as a means of buying and selling goods, and this was worst because it became threat of everyone's life.

³⁴ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.18)

*INT. HOME [first lines]
WILL SALAS [voice over]
I don't have time.
I don't have time to worry
About how it happened.
It is what it is.
We're genetically engineered to stop
Ageing at twenty five.
The trouble is, we live only one more year,
Unless we can get more time.
Time is now the currency.
We earn it and spend it.
The rich can live forever and the rest of us?
I just wanna wake up with more time
on my hand than hours in the day.³⁵*

The poor people could live in the limited age except they got more time but this thing was not applied to rich people because they had a lot of times in their hands. They could sleep with calm and comfortable condition. While the poor people they could not sleep calmly because they worried about what would happen in the next day.

Everyone, especially the poor people always hoped that they woke up with more time in their hand but it was impossible to happen. Everyone thought about themselves only. The poor people should work so hard everyday. They did not have other choice unless they were stealing or killing somebody in order to survive of their life.

2. Setting as antagonist

The next setting is setting as Antagonist. This function can help to establish plot conflict and determine the outcome of events. In this movie script, this function can be analyzed through Will Salas when he was at the Bar to meet his friend Borel, and accidentally he ended up meeting with Henry Hamilton. This man had a lot of time in his hand.

He had been living for more than one century time, and now he had one century time in his hand. He was drunk because he drank a lot of wine. He was so rich. So, he could drink as much as he wants. Will Salas tried to warn him to be careful

³⁵ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.1)

with his life time because everyone would be able to steal it easily by fighting or killing him but Henry Hamilton did not take it seriously what Will Salas had warned to him.

*[Will tries to warn the guy at the bar,
who has over a millennium in time
buying drinks for everyone at the bar]*

WILL SALAS

*You need to get out of here.
Somebody's gonna clean that clock.*

HENRY HAMILTON

Yes.

WILL SALAS

*I mean, they are going to rob you,
going to kill you.*

*You can't take that much time
and let you live to tell about it.*

HENRY HAMILTON

Yes.

WILL SALAS

I don't think you understand.

You should not be here!

*[Suddenly a gang known as time stealers burst
in the bar and everyone leaves]³⁶*

Finally, Fortis's gang came to the Bar. He knew that there was somebody who had a lot of time in his hand. Will Salas walked out with Borel to avoid from fortis gang but Will Salas felt guilty if he did not help Henry Hamilton. So, he decided to help him. Fortis met Henry Hamilton at the Bar.

As the writer comment in this movie script that Will Salas warned Henry Hamilton to be careful with the time in his hand. He asked Henry Hamilton to give his life time but he refused to give it and then Fortis asked him to do fighting and the winner would take the time but before that Henry Hamilton asked for a minute to go to toilet. In the toilet Bar Will Salas helped Henry Hamilton to escape from this gang.

FORTIS

My name's Fortis. And that's uh...is a very nice watch.

Do you mind if I try it on?

I think it would suit me.

I tell you what, I'll fight you for it.

³⁶ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.2)

*Come on. I'm an old man,
turned seventy five last week.*
HENRY HAMILTON
I need a moment.
[he turns and runs into the bathroom to throw up]
WILL SALAS
Ready to go.
Let's get you out of here.
FORTIS
Get him!
HENRY HAMILTON
Stop. What are you doing?
I can take care of myself.
WILL SALAS
Yeah, it looked like it.
HENRY HAMILTON
I know what I'm doing.
WILL SALAS
Run. Run! Come on
Here! Hurry³⁷

Will Salas and Henry Hamilton kept running from pursuing the Fortis's gang. Henry Hamilton did not know Will Salas very well. He just met him at the Bar. So, he was worried if Will Salas planned to steal his time too but it was not true. Finally, Will Salas found a safe place for Henry Hamilton. They hide in a empty apartment. They both had conversation about their life. Henry Hamilton explained how he spent his life time for one century time.

He felt bored to live for so long. He would like to die and rest in peace. In the morning, Henry Hamilton gave his one century time to Will Salas as a thank you for helping him from the pursuing of Fortis gang. Henry Hamilton did suicide. He was falling from a high cliff. And this event became the beginning of Will Salas problem because the timekeepers suspected him that he was the one who has killed Henry Hamilton and took his life time.

3. Setting as means to creating appropriate atmosphere

In this case setting as means of establishing atmosphere. Many authors manipulate their setting as a means of arousing the reader's expectations and establishing an appropriate state of mind for event to come. This setting could be seen when Will

³⁷ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.3)

Salas told Sylvia Weis about the condition that was experienced by the poor people. He said a lot of people die everyday and the price of needs always rising, and this condition really made them hard to survive. So, Will Salas and Sylvia Weis planned to rob the time from the timelenders in the Weis Bank.

SYLVIA WEIS

*Will, if you get a of time,
are you really gonna give it away?*

WILL SALAS

*I've only ever had a day.
How much do you need?
How can you live with yourself
watching people die right next to you?*

SYLVIA WEIS

*You don't watch.
You close your eyes.
I can help you get all the time you want.
[after they break into Weis's Time Bank
and steal the Time Holders,
they turn to the people standing around]
Ladies and gentlemen,
I'm happy to announce that
Weis Timelenders is now offering
interest free loans with no payments.*

WILL SALAS

Ever.

SYLVIA WEIS

So help yourselves and take a day.

WILL SALAS

*Take a month!
Hell, take a year!
Come on!
Help yourselves!
Take it!*

SYLVIA WEIS

*Take your time,
it's free!³⁸*

Will Salas saw the poor people make a long line to borrow the time from the timelenders Bank. When the poor people asked to borrow the time. The bank always gave a high interest to these poor people. So, the poor people had to think twice to borrow the time from the timelenders.

³⁸ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.15)

Will Salas broke into the Weis Bank with a truck. Will Salas stole much time from the Weis Bank. So, he could share this to the poor people. Moreover, Will Salas announced happily the poor people in Bank area to take the free time loans either one day, one month or even one year without having worried about giving it back.

Everyone looked happy after that they all together soon took the time. Will Salas did not care about he was being a fugitive from the timekeepers. As long as the poor people could survive to live and the rich people could be hurt by what he was doing on stealing the time.

4. Setting as means of revealing characters

A character often perceived the setting, and the way he or she reacts to it, will tell the reader more about the character and his state of mind than it will about the actual physical setting itself. In this movie, the setting could be in one of the ways to reveal the character of Will Salas. I could see the character of Will Salas when he was talking to Sylvia from the top building in Dayton city. He saw the price of goods always keeps raising everyday. It made the situation of the poor even worse

WILL SALAS

No, you don't understand.

All they have to do is keep raising the cost of living.

A hundred years, two, a thousand.

It does nothing.

SYLVIA WEIS

So what?

We just stop fighting?

WILL SALAS

We can't win.

We can't hurt them.

The time we're taking makes no damn difference!

SYLVIA WEIS

What would?

What would hurt them?

WILL SALAS

A million years.

You got a million years on you?

SYLVIA WEIS

*I guess it really would take a million years
Let's give up.³⁹*

I see that Will Salas was eager to steal something big that could hurt the rich people. He realized that the time he was taking is not enough to hurt the rich people. It made no difference. He had an idea to rob a million years but not he was not quiet sure if there was somebody with one million years time. Sylvia knew where to find a man with one million years time. Will Salas was really serious with his idea on stealing the time.

The dialogue showed that he was insurrectionist man. He did not care and worried about breaking the rules. So, Sylvia Weis and Will Salas had a planning on pretending to surrender to Sylvia Weis's father or Philippe Weis and then Will Salas would hostage the founder of Weis Bank. The quotation below shows how much one million years time can hurt the rich people and change the condition in all zones.

WILL SALAS

Do you know how much good it could do?

PHILIPPE WEIS

I know how much harm it could do.

Try to understand,

*even if you gave a year to a million people,
you're just prolonging their agony.*

SYLVIA WEIS

We're prolonging their lives!

PHILIPPE WEIS

*Giving the wrong zone with a million years,
it could cripple the system.*

SYLVIA WEIS

Let's hope so.

Will Salas succeed to steal the time from Philippe Weis in his central office Bank and with having this much time in his hand. He would share this time to the poor people in the Dayton zone and this was going to be useful for them. After he gave this time to the people there. All the Weis Bank system would be crippled because there were so much time been stolen. Everyone could go to New Greenwich zone which was the place for rich people. The cripple system caused everyone moved

³⁹ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.18)

to the New Greenwich. All the zones in the central office screen one by one was disappeared.

5. Setting as means of reinforcing themes

Setting also can be used as a means of reinforcing and clarifying the theme of this movie script. The main theme of this term paper is about conflict between the proletariat and the capitalists through the character of Will Salas. One of the scenes that proved the theme of this analysis in accordance with this movie when Will Salas went to the New Greenwich zone by passing several zones that cost a lot of time.

He succeed to pass those zones because of the time that was given by Henry Hamilton. He went to this zone in order to revenge to the capitalists for what they hadstolen from the poor people in this context was he proletariat. After he felt comfortable and good life of the capitalists. He went to Casino House to do gambling with the capitalists.

PHILIPPE WEIS

You must come from time.

WILL SALAS

You could say I'm gambling my inheritance.

PHILIPPE WEIS

You don't have a guard,

Mr. Salas?

WILL SALAS

I assume I was amongst friends.

PHILIPPE WEIS

Bet you fifty years.

You must be young.

*When you've been twenty five
for eighty five years like I have,
knowing only a random
act of violence could take your life,
you learn to appreciate what you have.*

WILL SALAS

And you seem to have a lot to appreciate.

PHILIPPE WEIS

Of course, some think what we have is unfair.

The time difference between zones.

WILL SALAS

I've heard that.

PHILIPPE WEIS

*But isn't this just the next logical step in our evolution?
And has evolution always been unfair?
It's always been survival of the fittest.
Raise you another two centuries.*

PHILIPPE WEIS

*This is merely Darwinian capitalism.
Natural selection.*

WILL SALAS

*Absolutely.
The strong survive and
I think your hand is weak.
I call.*

PHILIPPE WEIS

*It's you're limit,
Mr. Salas.
Thirteen figures.
Well played.
That was some risk.*

WILL SALAS

*It wasn't a risk.
No offense.
I knew I was going to win⁴⁰*

Will Salas won some games with the capitalists. Now, he had more than two centuries times in his hand. Next, he had to duel with Philippe Weis. He was the father of Sylvia Weis and also the owner of Weis Bank in all zones. Philippe Weis suspected Will Salas that he did not come from this zone because he did not have a guard with him.

Will Salas answered calmly that he came here to represent the poor people to withstand the rich capitalists. Philippe Weis explained that the condition was Darwinian capitalism. So, the strongest one would survive. This situation was like the natural selection. He asked Will Salas to bet two centuries time that in the previous bet was fifty years. Will Salas was not afraid of his offering.

He deposited two centuries times even though he knew that he had only thirty second left in his hand. Then, he thought about what Philippe Weis said before about the strongest person would survive in this life but actually his hand was weak because he was not able to fight with the people. He bribed the people to

⁴⁰ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid,p.16)

solve the problem with the much time that he had and all the problem will be done.

I could prove this when he tried to bribe the timekeepers to save his daughter from legal entanglement. Finally, Will Salas won the gambling against him. He received more than one millennium time after that he left the Casino House and he was ready for the next gambling in Sylvia's house.

C. Plot

As I mentioned above, Plot was the sequence that continued step by step. Plot structure first is the *exposition* which provides the necessary background information, then *rising action* which provides the that leads to the climax, and then *climax* which is the high point or a major culmination of events, then *falling action* which is the part of the story following the climax and shows the effects of the climax, and the last one is *resolution*, the part of the story in which the problem of the story is resolved. The plot of *In Time* movie is:

1. Exposition

In this section, there is a variety of information or the beginning of a story that gives an explanation of the beginning of the problem in the movie script. The story began when Will Salas woke up in the morning on the bed. He said all the people were genetically engineered to stop ageing at the twenty five years old after that they had one more year left to survive.

They could extend their age to be longer or dying faster if they were being lazy or not looking for more time for their survival. There was no money anymore. The money was changed to be time and it became a means to buy some things. The rich people could live forever but the rest of them was not.

WILL SALAS [voice over]

I don't have time.

I don't have time to worry about how it happened.

It is what it is.

We're genetically engineered to stop Ageing at twenty five.

*The trouble is, we live only one more year,
unless we can get more time.*

Time is now the currency.

*We earn it and spend it.
The rich can live forever and the rest of us?*
WILL SALAS
*You'll be safe till morning.
I'll get you out of here.
You're from New Greenwich.*
HENRY HAMILTON
*How old are you,
in real time?*
WILL SALAS
Twenty eight.
HENRY HAMILTON
I'm a hundred and five.
WILL SALAS
*Good for you.
You won't see a hundred and
six if you have too many more nights like tonight.*
HENRY HAMILTON
*You were right.
But the day comes when you've had enough.
Your mind can be spent,
even if your body's not.
We want to die, we need to.*
WILL SALAS
*Get some rest.
[Henry looks at the time remaining on his arm]
Don't worry,
I won't take it in the night.*
HENRY HAMILTON
*And I won't take yours.
[they both smile at the joke]
[after Henry has transferred all his time to Will and
killed himself,
Will goes to see Borel]⁴¹*

Will Salas lived with his mother in Dayton zone. His father died because someone had killed his father from taking his time. He had to work to help his mother to survive from this condition. He was working in garment district to help his mom. He was quiet upset because the price of everything was always getting higher who made the poor people increasingly tormented.

This condition also became the cause of his mother's death after working he went to Bar and met Henry Hamilton. He was the one who gave one century time to him because Will Salas helped him from pursuing Fortis gang. He had a lot of time in

⁴¹ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.14)

his hand but the timekeepers was looking for him because he was suspected as the one who had killed Henry Hamilton, but actually Henry Hamilton gave his time willingly to him because he was bored to live for too long.

2. Complication

This section shows the scene where Will Salas succeed to go to the New Greenwich zone to revenge to the capitalist for what they had stolen from the poor people. He started to gamble with the capitalists. He bet a lot of time on the table but he finally won the game and he got one millenium years time in his hand. In the next day he played gambling again with Philippe Weis but this time he was not lucky because the timekeepers had succeed to track his existance in Casino House, New Greenwich zone. Raymond Leon caught Will Salas and investigated him.

WILL SALAS

I don't expect you to believe it.

But it's the truth.

It was a gift,

I'm not a thief.

But hey,

*if you guys are looking for some stolen time,
maybe you should arrest everyone here.*

RAYMOND LEON

Oh, I see.

You're talking about justice.

I am a Timekeeper,

I don't concern myself with justice.

I only concern myself with what I can measure.

Seconds, minutes, hours.

I keep time and that time is in the wrong hands.

[Jaeger and Korsqq take hold of Will and take his time]

TIME KEEPER JAEGER

That time will be held along with you.

We'll leave you two hours for booking and processing.

[as Sylvia discovers why the Timekeepers were after Will]

PHILIPPES WEIS

Stop him!

WILL SALAS

Move! Get out of the way!

Put it down or I'll blow her head off.

Thanks.

SYLVIA WEIS

You're going to kill us!

*Please just let me out!
What are you doing?
Do you even know how to drive?
WILL SALAS
What's there to know?
Oh, shit.⁴²*

Timekeepers asked Will Salas about the time he got in his hand. He answered he got it from Henry Hamilton and also gambling but the time keepers did not believe that Henry Hamilton gave it willingly. Will Salas explained that he was not a thief and actually it was a gift from somebody. He demanded a justice to the timekeepers.

He should arrest everyone here because he had stolen the time from the poor people but timekeepers did not care because his explanation. He did not concern about the justice but he only concern himself with what he could measure, and then he took almost all Will Salas time, and he just left two hours for him.

Will Salas could not accept this unfair treatment. He rebelled and fought with the timekeepers and then he hostaged Philippe Weis's daughter, Sylvia Weis. Will Salas got away with her by car. Then, Raymond Leon and other timekeepers pursued them while shooting them by a gun but finally Will Salas managed to escape from the timekeepers.

On the way he got an accident because the Fortis's gang put some traps on the road. Will Salas and Sylvia Weis fainted and Fortis's gang took their time. Both of them woke up from fainting and they realized that they did not have much time left in their hand. They finally cooperated to get more time for their survival.

3. Crisis

Crisis or climax occurs when Sylvia Weis realized that Will Salas had a big dream to help the poor people. Sylvia Weis decided to help after seeing and felt the suffering of poor people. Will Salas planned to steal the time from the Weis Bank to help these poor people. This condition became worst when the capitalists always increased the price of goods that making the poor people even harder to survive.

⁴² <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.9)

Will Salas could not accept the death of poor people he saw everyday in the street. Everyone tried to work harder but the cost of living was always getting higher. Some people even dying because they fought to get people's time. This situation must be changed. So, they broke through the Weis Bank with a truck.

SYLVIA WEIS

*Will, if you get a lot of time,
are you really gonna give it away?*

WILL SALAS

*I've only ever had a day.
How much do you need?
How can you live with yourself watching people die
right next to you?*

SYLVIA WEIS

*You don't watch.
You close your eyes.
I can help you get all the time you want.*

WILL SALAS

Let's go

SYLVIA WEIS

*Ladies and gentlemen,
I am happy to announce that
Weis Timelenders is now offering interest-free
loans with no payments.*

WILL SALAS

Free.

SYLVIA WEIS

So help yourselves and take a day.

WILL SALAS

*Take a month.
Hell, take a year.
Come on.*

Help yourselves!

Take it.

SYLVIA WEIS

Take the time. it's free.⁴³

Will Salas succeed to break the Weis Bank. They took a lot time from this Weis Bank. They did not care about againts the rules all he knew he did not see the justice in this life. Will Salas and Sylvia Weis made the annoucement to the poor people that they could take this free loans as much as they wanted either one day, one month or even one year.

⁴³ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.15)

Everyone was happy about this. Simultaneously, all the poor people took the time and used it for their survival. Will Salas and Sylvia left the Weis Bank and then they went to one place to the other place to give the time to the poor people such as Maya, and Borel's wife.

After hearing the news about this rebellion the timekeepers came to the Weis Bank and they stopped all the poor people from taking the time. Finally, Will Salas and Sylvia Weis became fugitives but becoming heroes for the poor people.

4. Falling Action

Will Salas and Sylvia Weis managed to escape from pursuing of Fortis gang. The gang was killed by Will Salas in the Hotel. The timekeepers kept looking for these fugitives. As they kept stealing the time from the Weis Bank. For a while, Will Salas was standing on the top of building and saw the condition of poor people in Dayton zone.

He saw the city and thought that stealing the time from timelander wouldn't change the condition of these poor people because the capitalists always increased price of goods. So, it become useless. He wanted something big that could hurt the capitalists. They planned to steal one million years time and then Sylvia Weis showed him the way where to get that one million years time

WILL SALAS

We can't win.

We can't hurt them.

The time we're taking makes no damn difference!

SYLVIA WEIS

What would?

What would hurt them?

WILL SALAS

A million years.

You got a million years on you?

SYLVIA WEIS

I guess it really would take a million years

Let's give up.

PHILIPPE WEIS

You'd steal from your own father?

SYLVIA WEIS

Is it stealing if it's already stolen?

WILL SALAS

What's the combination?

SYLVIA WEIS

Well it's not my Birthday.

You started to regret that day I imagine, father.

Try twelve, two, eighteen-o-nine.

Darwin's Birthday.

WILL SALAS

Survival of the fittest.

You know it cost us centuries just

to bribe our way to be in here.

Let's see what it's gotten us.

WILL SALAS

Quality time.

There really is a man with a million years.

PHILIPPE WEIS

That's my first million.

It won't be my last.⁴⁴

Will Salas and Sylvia Weis managed to go the Philippe Weis's place. He was the owner of Weis bank in all zones and the one who had the one million years time. Sylvia Weis was pretending to give up to his father, and then Will Salas did his action. He hostaged Philippe Weis with a gun in his head. Philippe Weis could not do anything even though he had a lot of guards with him. After that Will Salas asked him to take him to the place where he kept the one million years time. When all of them arrived in a room where Philippe Weis kept the million years time. They opened the door by inserting the code that was installed by Philippe Weis. Finally, they got the one million years time with them. This time was the first of Philippe Weis's one million years time. With this one million years time in Will Salas hand he would share this time to the poor people in Dayton zone. Philippe Weis thought by giving this this time to them. It would prolong their agony but actually it was not true because this time would prolong their life. The best thing from stealing one million years time when the poor people got enough time in their hand. Everyone would be able to move to the New Greenwich zone. If this was going to happen it would make system would be crippled because everyone would able to go to this rich zone.

⁴⁴ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.18)

5. Resolution

Finally, Will Salas got one million years time from Philippe Weis. Everyone in Ghetto was waiting for him. He was pursued by the timekeeper, Raymond Leon. He managed to arrive in Ghetto area. He gave this time to his little friend Maya secretly. Raymond Leon was late. Will Salas did not have this one million years time with him anymore. After a while, the atmosphere became crowded and messy when the people noticed that the time was given to them.

Everyone was yelling and running towards to Maya to get the time from her. Will Salas utilized this situation. Will Salas and Sylvia Weis got away calmly and slowly through the crowd of people. The poor people also helped them by blocking the view of Raymond Leon to see them.

WILL SALAS

*You're from here,
aren't you?*

RAYMOND LEON

Long time ago.

WILL SALAS

Yeah.

RAYMOND LEON

I worked out how to escape.

WILL SALAS

And now you make sure no one else does.

RAYMOND LEON

It's the way it has to be.

I didn't start the clock.

I can't turn it back.

I keep it running.

I keep time.

WILL SALAS

You keep time.

*I'm gonna need some of that time
you borrowed from me.*

Unless you want us to die on the way to our execution.

RAYMOND LEON

I'm...[suddenly Leon looks down

*at his clock as sees he's only got 5 seconds left
which runs out and he dies]*

[as they're down to their last minute,

Will notices Leon's car parked a few yards ahead]

WILL SALAS
There's time.
SYLVIA WEIS
What?
WILL SALAS
The Keeper's time.
*Run! Run!*⁴⁵

Will Salas and Sylvia Weis got a car to escape. They went to Livingston but Raymond Leon saw them two, and then pursuing them again. Raymond Leon finally caught them. They had a serious conversation. Will Salas opened Raymond Leon's life in the past. He was one of the people from Dayton zone also who managed to escape from this zone and went to the New Greenwich zone.

He did not like the poor people in Ghetto area especially when he knew that Will Salas's father who was already dead was a bad man but actually it was not true. While they were having discussion. Raymond Leon did not realize that he did not have much time left in his hand. He was dead because he did not have time again in his hand. Will Salas and Sylvia Weis also did not have much time left.

At first, they felt despair but they saw Raymond Leon's car. They went towards to the car and asked the machine to transfer the time to Will Salas, and then Will Salas transferred the time to Sylvia Weis. They were both safe and alive. The condition of all zones were messy. The residents took to the streets because of too much time had been stolen in circulation.

The system was crippled. Everyone in all zones started to move to the New Greenwich zone. The workers who were working in watching all zones had been given up and went home because the system was broken. Will Salas and Sylvia were still becoming fugitives, and they kept stealing the time from the Weis Bank to help the poor people.

D. Summary of the Chapter Two

In Chapter 2, I analyze *In time* movie through intrinsic approach. As I mentioned at the beginning, intrinsic approach mainly concerns with the showing and telling

⁴⁵ <http://www.moviequotesandmore.com/in-time-movie-quotes.html> (ibid.,p.19)

methods, elements of setting, and structure of plot in a literary work. I use the showing and telling methods which is suitable with the movie analysis.

I apply these methods to reveal the characteristics of Will Salas, Sylvia Weis and also Philippe Weis. Through revealing their characteristics using showing and telling, I have explained that Will Salas is an insurrectionist man, avengeful, brave and also hero who always wanted to help the poor people.

He tried his best effort to change the condition of poor people. For explaining the setting in this movie, I use the five functions of setting to analyze the movie. Those are setting as background for action, setting as antagonist, setting as means of revealing character, setting as means of creating appropriate atmosphere, and setting as means of reinforcing theme of this film.

The last element in intrinsic approach the writer uses is plot. Plot consists of exposition, complication or rising action, climax or crisis, falling action, and the last is resolution, I have explained the plot of In Time movie sequentially.

The story of this movie is started with the introduction from Will Salas about the people genetically engineered to stop ageing at twenty five. The trouble is that they live only one more year, unless they can get more time. Time is now the currency. The rich can live forever and the poor people not.
