Background of Problem

A language is a system of communication which consists of a set of sounds and written symbols which are used by the people of a particular country or region for talking or writing. The scientific discipline related to language is linguistics. Linguistics is the study of language how it is put together and how it functions. In general linguistics is commonly defined as the science of language or science which takes language as its object of study.

Language, as an object of linguistic study, is an arbitrary sound symbol system used by members of social groups to work together, communicate, and identify themselves. The study of meaning in linguistics is divided into two parts, namely pragmatics and semantics. In my research, I focused on semantic studies.

Background of Problem

Semantics is the study of meaning which examines symbols or signs that express meaning, the relationship of one meaning to another, and its influence on humans and society. in pragmatics the concept of analyzing the meaning of one of them by looking at the use of figures of speech. the use of figure of speech can also be seen in literary works, one of which is in the album song lyrics by looking at the use of figurative language.

Figurative language is majas or language used by writers or speakers to convey messages or allusions that aim to make readers or listeners understand the style of language used. In this condition also figurative language is a technique to reveal the style of language whose meaning does not refer to the literal meaning of the word that supports, but to the added meaning or implied meaning.

Conclusion

Based on the goals of the study, I summarises down all of the analyses that were presented in the earlier chapters in this chapter. The purpose of the study is to identify the various figurative language kinds and meanings found in the album Slipknot (We Are Not Your Kind). I uses Abrams (1981) theory to find out types of figurative language in Slipknot (We Are Not Your Kind) album. After taking the data and classifying the data based on categories of figurative language, I concludes that Slipknot (We Are Not Your Kind) album uses metaphor, simile, personification, hyperbole, allusion, and idiom.

Based on the analysis on chapter 4, it can be concluded that there are 5 types of figurative language found Album. Slipknot (We Are Not Your Kind) album. There are fourty - four (44) metaphors, two (2) similes, ten (10) personifications, four (4) hyperboles and one (1) allusion.

Conclusion

In the We Are Not Your Kind Album, songwriter Shawn "Clown" Crahan wants to convey disparities exist not just in contemporary society but also in global events and the singer's hectic life, because Taylor's life is chaotic in more ways than one. Taylor's exorbitant pricing is creatively motivated by his pain and the reality of a broken heart. Demonstrating his sadness and rage doesn't make him any less effective.

With the figurative language in the songs of We Are Not Your Kind album, it illustrates that the author wants to convey contempory society and psychological feeling messages to the listeners through the songs written by the songwriter, Shawn Crahan. Looking at the various figurative language contained in the songs, we can know that figurative language can have a role as a conveying the meaning of each lyric in any song.
