APPENDIX 2: POSTER OF THE RESEARCH

SEMANTIC ANALYSIS OF POLYSEMY IN "THE BATMAN (2022)" MOVIE SCRIPT

Aqbil.F.Santoso 2018130038

Background
Linguistics, Study of the nature and structure of language. It traditionally encompasses semantics, syntax, and phonology. Linguistics is the scientific study of language, and its focus is the systematic investigation of the properties of particular languages as well as the characteristics of language in general.

Formulation of the Problem
1. What polysemy words are found in The Batman (2022) script movie.

2. What dominant types of polysemy found in The Batman (2022) script movie.

Objective of the Research

1. To find out types of polysemy words found in *The Batman (2022)* Movie script.

2. To find out dominant types of polysemy found in *The Batman (2022)* Movie script.

RESEARCH METHOD
The research was conducted by using qualitative analysis method. This study aims to facilitate researchers to make a more complex analysis based on the nature of qualitative design. The use of research design will aimed to help the researcher make a better analysis. By using this method, the data would be collected to describe, investigate and explain Polysemy in The Batman (2022) movie.

Conclusions
This study found several polysemy words uttered by characters in the The Batman (2022) movie. In the findings and discussion, the number of polysemy words contained in this film is 13 polysemy words such as Based on the context, the researcher concludes that the polysemy words found in this film have different meanings from their actual meanings.

APPENDIX 3: PRESENTATION SLIDES

Table of Contents

Background of Problem

Linguistics	Semantics	Polysemy	"The Batman (2022)" Movie Script
Linguistics, Study of the nature and structure of language. It traditionally encompasses semantics, syntax, and phonology. The systematic study of the traits of specific languages as well as those of language in general is the main goal of linguistics, the scientific study of language.	Semantics is the study of the meaning of words and sentences. It explores the relations between linguistic forms and non-linguistic concepts and mental representations to explain how sentences are understood by native speakers.	Polysemy refers to a word that holds multiple meanings depending on the context in which it is used. A linguistic unit, specifically a word (but also a phrase), that has multiple meanings is known as polysemy.	I am interested in analyzing the film The Batman (2022) and to examine polysemous words in The Batman (2022) movie script

IDENTIFICATION OF THE PROBLEM

01

the issue was that many audience still found Since the meanings of polysemous words can differ greatly based on the context of each sentence, it can be difficult to identify them in expressions. As a result, I discovered several forms of polysemy that are frequently employed yet could signify different things in various situations.

01

FORMULATION OF THE PROBLEM

The research problems are structured as follows in respect to the study's background:

⭐ **FORMULATION OF THE PROBLEM 1**

1. Which words in the script of "The Batman (2022)" are polysemous?

⭐ **FORMULATION OF THE PROBLEM 2**

2. Which kind of polysemy is most prevalent in the Batman movie script from 2022?

FRAMEWORK OF THE THEORIES

01 Linguistics

Bloomfield (1933; 20–34) linguistics is a science, just like physics and chemistry.

02 Semantics

Lehrer; (1974: 1) Semantics is the study of meaning. For Lehrer, semantics is a very broad field of study, because it also alludes to aspects of the structure and function of language so that it can be linked to psychology, philosophy and anthropology.

03 Polysemy

Palmer (1986: 100) Polysemy refers to the phenomenon where a single word has multiple interpretations based on the context in which it is employed.

01 03 02

REVIEW OF PREVIOUS STUDY

01

The research that is conducted by Habibah Eka Agustriani (2022) The documentation method was used to collect the data from Nadiem Makrim's speech. Next, data reduction, data visualization, conclusion drawing, and verification are used in this study's analysis.

02

The research that is conducted by Atika Puspasari and Bambang Adi Subroto (2012) the most common types of polysemy used in the film "This Means War," the definitions of polysemous words used by the main characters, and the identification of the polysemous words used by the main characters.

03

The research that is conducted by Sonia Putri Indah (2018) The data used in this study came from the script for the Fast and Furious movie script. The 56 pages that made up the script were all used as the data. This study used a qualitative approach to research.

METHOD OF THE RESEARCH

Kualitatif

The qualitative analysis method was used to conduct the study. Because the research was conducted in natural settings, Sugiyono (2011, 14) claims that qualitative research methods are frequently referred to as naturalistic research methods.

Data Collection Technique

The following procedures are used to gather data for the research:
1. Taking in the film The Batman (2022).
2. Browsing the script of The Batman (2022) movie.
3. Searching for the subtitles and matching the dialogue in the film Add up the data for the polysemy.
4. Downloading the script of The Batman (2022) movie.
5. Figuring the polysemy verbs in the script The Batman (2022) movie.
6. Underlining the polysemy words found it The Batman (2022) movie.

Data Analysis Technique

The interactive model that Miles and Huberman (2014) proposed was used to analyze the research data. The analysis consists of three current flows of activities:
(a) data reduction;
(b) data display;
(c) data drawing; and
(d) verifying conclusion.

RESEARCH FINDINGS AND ANALYSIS

KEYWORD
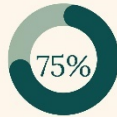

Data Analysis

SEMANTIC ANALYSIS OF POLYSEMY IN "THE BATMAN (2022)" MOVIE SCRIPT

| Container/contained Alternation (5 data)	plants and foods (5 data)	contained and containerized (9 data)	Figure/Ground reversal (8 data)	Alternate producer/product (6 data)	Variations pertaining to location (12 data)

Conclusion

I found all types of Polysemy by using Manfred Krifka theory They are food or plant; alternations in containers or contained; ground or figure; producer or product; alternations in processes or outcomes; and alternations involving location. The most dominant types of polysemy that I found is the "The Batman (2022)" movie script is Variations pertaining to location
